Social Media Influencers in Strategic Communication Nils S. Borchers, 2021-12-21 This book seeks to draw a comprehensive picture of influencer collaborations from a strategic communication perspective The contributors tackle strategic influencer communication from multidisciplinary perspectives from varying actor foci and from different methodological frameworks and methods Influencers cross traditional boundaries in many ways and oscillate between intimacy and publicity authenticity and

commercialization ingratiation and critical distance From a strategic communication perspective this variability makes influencers hard to capture organizations can cooperate with influencers to achieve both marketing and PR objectives Influencers can act as cooperation partners integrating commercial content into organic narratives or as independent critics Influencers also combine different roles that have traditionally been occupied by separate actors such as intermediary content distributor creative content producer community manager testimonial strategic counsellor and event host The combination of these roles in just one actor opens new opportunities for strategic communication and can produce appreciated synergy effects It is therefore hardly surprising that influencer collaborations have become a firmly established instrument in the toolbox of strategic communicators The chapters in this book were originally published in the *International Journal of Advertising* and the *International Journal of Strategic Communication*

Review Colin Talbot, Matt Baker, 2008-12-15 As Gordon Brown launches the fifth Comprehensive Spending Review since New Labour came to power in 1997 we might ask ourselves why all the debate about priorities and policies has remained firmly under wraps in the Whitehall village It was after all Brown himself who announced that the Comprehensive Spending Review would be carried out through national debate rather than the secretive process which has come to decide our national priorities In this the first alternative spending review to be published through the Herbert Simon Institute at the University of Manchester the editors aim to draw back the veil of secrecy and let the real debate on the long term trends and challenges that will shape the next decade begin Identifying the reforms and investments needed to meet long term challenges across government departments a team of distinguished academics examine the spending issues and constraints facing public services the policy and delivery challenges across government and look at how public spending reforms have fared so far A vital source for those wishing to make the spending review process more open the Alternative Comprehensive Spending Review 2007 is essential reading for anyone interested in public administration and public policy **American Journalism**
