*Modern Global Economic System: Evolutional Development vs.*

*Revolutionary Leap* Elena G. Popkova, Bruno S. Sergi, 2021-03-16 This proceedings book reflects the alternative way of development of the modern global economic system. It sets evolutionary development in opposition to revolutionary leap. The search for the best way to develop the world economy in the present and future is carried out. The social environment and the human centered development of the modern global economic system have been explored. The features of training of personnel for the modern global economic system through the development of vocational education and training have been studied. Sustainable development, energy and food security have been identified as significant milestones of the progress of the modern global economic system. Innovations and digital technologies have been suggested as the drivers of growth and development of the modern global economic system. Consideration has been given to the institutional framework and legal groundwork for the development of the modern global economic system. The fundamentals have been identified and recommendations have been put forward for improving governmental regulation, financial and capital investment support for integration in the modern global economic system. The book includes the best works based on the results of the 22nd International Research to Practice Conference Current Issues of the Global Economy which was held on June 19 2020 at the Peoples Friendship University of Russia PFUR Moscow Russia and the 14th National Research to Practice Conference A New Paradigm of Social and Economic Development in the Age of Intelligent Machines which was held on May 14 16 2020 Nizhny Novgorod Russia.
