

Adaptive Acquisition Framework (AAF) Quick Reference Card

Tailoring In, MDAu/DAs will tailor program strategies and oversight, phase content, timing and scope of decision reviews, and decision levels based on characteristics of the capability being acquired to satisfy user requirements. **Multiple Pathways**, PMs, with MDAu/DAs approval, may combine pathways to provide value not available through use of a single pathway. PMs will: Define transition points from one pathway to another; anticipate, develop, and coordinate information requirements required at the new pathway entry point; identify regulatory and statutory information requirements; and ensure a smooth transition.
