Database and XML Technologies Zohra Bellahsène,Ela Hunt,Michael Rys,Rainer Unland,2009-08-20 Since its first edition in 2003 the XML Database Symposium series XSym has been a forum for academics practitioners users and vendors allowing all to discuss the use of and synergy between database management systems and XML The previous symposia have provided opportunities for timely discussions on a broad range of topics pertaining to the theory and practice of XML data management and its applications XSym 2009 continued this XSym tradition with a program consisting of 15 papers and a keynote shared with the 12th International Symposium on Database Programming Languages DBPL 2009 We received 26 paper submissions out of which eight papers were accepted as full papers and seven as short demo papers Each submitted paper underwent a rigorous and careful review by four referees for long papers and three for the short ones The contributions in these proceedings are a fine sample of the very best current search in XML query processing including full

text keyword and loosely structured queries stream querying and joins and materialized views Among new theoretical advances we included work on a lambda calculus model of XML and XPath on m ping from the enhanced entity relationship conceptual model to the W3C XML Schema Language on transactions and extensions to XPath Finally work on data parallel algorithms compression and practical aspects of XQuery including query forms and the use of Prolog are also part of this volume **Database and XML Technologies** Mong Li Lee,Jeffrey Xu Yu,Zohra Bellahsene,Rainer Unland,2010-09-15 Since its first edition in 2003 the XML Database Symposium series XSym has been a forum for academics practitioners users and vendors allowing all to discuss the use of and synergy between database management systems and XML The symposia have provided many opportunities for timely discussions on a broad range of topics pertaining to the theory and practice of XML data management and its applications XSym 2010 continued this XSym tradition with a program consisting of 11 papers and a keynote shared with the 36th International Conference on Very Large Data Bases VLDB 2010 We received 20 paper submissions out of which 8 papers were accepted as full papers and 3 as short papers Each submitted paper underwent a rigorous and careful review by four referees The contributions in these proceedings are a fine sample of the current research in XML query processing including XPath satisfiability approximate joins pattern matching linear index construction for trees dynamic labeling and XQuery update translation based on schema The papers focus on recent advances in detecting fu tional dependencies modeling complex XML twig pattern output promoting sem tics capability of XML keys and searchable compression of Microsoft office do ments In addition we include a paper that shares lessons learned from real XML database development *Database and XML Technologies* Stéphane Bressan,Stefano Ceri,Ela Hunt,Zachary G. Ives,Zohra Bellahsène,Michael Rys,Rainer Unland,2005-08-25 This book constitutes the refereed proceedings of the Third International XML Database Symposium XSym 2005 held in Trondheim Norway in August 2005 in conjunction with VLDB 2005 and in coordination with the Database and Programming Languages Symposium DBPL 2005 The 15 revised full papers were carefully reviewed and are preluded by a joint XSym DBPL keynote talk The papers are organized in topical sections on indexing support for the evaluation of XPath and XQuery benchmarks and algorithms for XQuery and XPath evaluation algorithms for constraint satisfaction checking information extraction and subtree matching and applications of XML in information systems Database and XML Technologies Zohra Bellahsène,Akmal B. Chaudhri,Erhard Rahm,Michael Rys,Rainer Unland,2003-10-02 The Extensible Markup Language XML is playing an increasingly important role in the exchange of a wide variety of data on the Web and elsewhere The database c munity is interested in XML because it can be used to represent a variety of data f mats originating in different kinds of data repositories while providing structure and the possibility to add type information The theme of this symposium is the combination of database and XML te nologies Today we see growing interest in using these technologies together for many Web based and database centric applications XML is being used to publish data from database systems on the Web by providing input to content generators for Web pages and

database systems are increasingly being used to store and query XML data often by handling queries issued over the Internet As database systems incre ingly start talking to each other over the Web there is a fast growing interest in using XML as the standard exchange format for distributed query processing As a result many relational database systems export data as XML documents import data from XML documents provide query and update capabilities for XML data In addition so called native XML database and integration systems are appearing on the database market and it s claimed that they are especially tailored to store maintain and easily access XML documents **Database and XML Technologies** ,2004 *Database and XML Technologies* Sihem Amer-Yahia,Zohra Bellahsène,Ela Hunt,Rainer Unland,Jeffrey Xu Yu,2006-09-07 This book constitutes the refereed proceedings of the 4th International XML Database Symposium XSym 2006 held in conjunction with the International Conference on Very Large Data Bases VLDB 2006 The book presents 8 revised full papers focused on building XML repositories and covering query processing caching indexing and navigation support structural matching temporal XML and XML updates Topical sections include query evaluation and temporal XML XPath and twigs and XML updates Database and XML Technologies Denilson Barbosa,2007-09-18 This book constitutes the refereed proceedings of the 5th International XML Database Symposium XSym 2007 held in Vienna Austria in September 2007 in conjunction with the International Conference on Very Large Data Bases VLDB 2007 The papers cover all current aspects of core database technology for XML data management XML and data integration and development and deployment of XML applications **Database and XML Technologies** Sihem Amer-Yahia,2006-09-04 This book constitutes the refereed proceedings of the 4th International XML Database Symposium XSym 2006 held in conjunction with the International Conference on Very Large Data Bases VLDB 2006 The book presents 8 revised full papers focused on building XML repositories and covering query processing caching indexing and navigation support structural matching temporal XML and XML updates Topical sections include query evaluation and temporal XML XPath and twigs and XML updates *XML Databases and the Semantic Web* Bhavani Thuraisingham,2002-03-27 Efficient access to data sharing data extracting information from data and making use of the information have become urgent needs for today s corporations With so much data on the Web managing it with conventional tools is becoming almost impossible New tools and techniques are necessary to provide interoperability as well as warehousing betw *Open and Novel Issues in XML Database Applications: Future Directions and Advanced Technologies* Pardede, Eric,2009-04-30 Covers comprehensive issues and challenges discovered through leading international XML database research **Wavelet Active Media Technology and Information Processing** , **XQuery from the Experts** Howard Katz,Donald Dean Chamberlin,2004 bull Nobody knows XQuery better than this group of experts after all they created it We ve cornered the market on expertise in XQuery bull Allows readers to focus on either or both a tutorial or reference style approach as best suits them bull Currently there are no other competing XQuery books Authors personal perspectives offer a welcome change to formal standards specs *2013 International Conference on Computer*

Science and Artificial Intelligence Dr. Yuetong Lin,Dr. Gabriel Alungbe,2014-11-16 The main objective of ICCSAI2013 is to provide a platform for the presentation of top and latest research results in global scientific areas The conference aims to provide a high level international forum for researcher engineers and practitioners to present and discuss recent advances and new techniques in computer science and artificial intelligence It also serves to foster communications among researcher engineers and practitioners working in a common interest in improving computer science artificial intelligence and the related fields We have received 325 numbers of papers through Call for Paper out of which 94 numbers of papers were accepted for publication in the conference proceedings through double blind review process The conference is designed to stimulate the young minds including Research Scholars Academicians and Practitioners to contribute their ideas thoughts and nobility in these two disciplines **XML Data Management** Akmal B. Chaudhri,Awais Rashid,Roberto Zicari,2003 In this book you will find discussions on the newest native XML databases along with information on working with XML enabled relational database systems In addition XML Data Management thoroughly examines benchmarks and analysis techniques for performance of XML databases This book is best used by students that are knowledgeable in database technology and are familiar with XML Information Technology in Geo-engineering D. G. Toll,Hehua Zhu,Xiaojun Li,2010 Information technology IT is now intrinsic to many aspects of our lives and this is no less so for the field of geo engineering where it is widely used This volume presents the proceedings of the First International Conference on Information Technology in Geo Engineering in Shanghai September 2010 The conference brought together engineers scientists researchers and educators to review new developments and IT advances in geo engineering and provided a forum for the discussion of future trends Iformation technology evolves constantly and the innovative concepts strategies and technologies which have sprung up are becoming ever more important to all aspects of geo engineering facilitating design processes improving construction efficiency andlowering maintenance costs These topics are among the many addressed here Of interest to all those involved in the field of geo engineering it is hoped that this volume will prove to be the first of a series to cover regular international conference on this increasingly important subject **Beginning XML Databases** Gavin Powell,2007 Supported by all major database systems XML provides an easy standardized method of transferring data between databases and to and from the Web independent of the software in use Offers database programmers and data driven Web developers detailed guidance on how to understand and work with XML as data Numerous hands on step by step examples help readers learn to simplify database work using XML Shows how to use XML to exchange data between multiple databases either internally or with external customers and partners Covers XML in popular databases including Oracle Database SQL Server and brief coverage of DB2 Database Covers basic syntax for XML the XML DOM and XSL with an emphasis on database use and native XML databases Additional topics covered include Native XML databases XPath XQuery XLink XPointer DTDs XML Schemas among others **Oracle Database 11g Building Oracle XML DB Applications** Jinyu Wang,2011-07-01 Master the XML
