*Finance and Investment: The European Case* Colin Mayer, Stefano Micossi, Marco Onado, Marco Pagano, Andrea Polo, 2017-12-29 Low growth low investment insufficient spend on infrastructure weak bank lending to the corporate sector and funding deficiencies of small and medium sized enterprises are all causes of concern in Europe To many they point to fundamental problems in the financing of European companies and in Europe s financial systems Are these concerns valid and do the structure and performance of the financial system lie at their heart If so what should be done to address them and have the right policy prescriptions been identified to date A product of the Restarting European Investment Finance research programme Finance and Investment The European Case brings together leading researchers to consider the causes of the persistently low level of investment in Europe It examines the extent to which the financial system is a contributory factor and identifies possible remedies considering the relation of finance to corporate sector investment the lending behaviour of banks the provision of equity financing and the role of public sector institutions regulation and taxation Finance and Investment provides one of the most comprehensive and thorough analyses of any financial system undertaken to date It reflects a large body of research using new and existing data sets employing advanced empirical tools and exploiting the unique insights provided by the tumultuous events of financial and sovereign debt crises Together they comprise an exceptional body of knowledge to advance academic thinking and guide policy formulation

*The Notion of Employer in the Era of the Fissured Workplace* Roger Blanpain, Frank Hendrickx, 2017-01-15 The word fissured aptly describes the effect on the workplace of the enormous retreat from direct employment on the part of large enterprises that began several decades ago and shows no sign of slowing down Market leading companies even though they continue to wield considerable influence on the fate of actual workers may thus be relieved of legal responsibility as employers How extensive is this phenomenon Do recourses exist in labour law What ongoing trends can be discerned This groundbreaking book tackles these questions and more with thoroughly researched reports from ten of the world s leading market driven economies Australia China France Germany Japan the Republic of Korea Spain Taiwan the United Kingdom and the United States Recognizing that law should squarely grasp and tackle this new reality the authors consider such questions as the following How far can current labour law go in determining the responsibility of persons who have no direct contractual relationship with the workers Do other measures such as soft law or reputation mechanisms in the market deal with the undesirable consequences of the fissurization more properly What managerial motives and socioeconomic backgrounds give rise to such fissurization What distinct phenomena compose fissuring Are measures available to protect workers that go beyond the boundary of the legal entity e g initiatives toward piercing the corporate veil Each contributor describes for his or her country how far the fragmentation and externalization of employment has gone current legislation protecting workers in a multilayered contractual relationship or indirect employment relationship e g on health and safety wages bargaining dismissal and

emerging developments and trends This book ably responds to the question posed by a recent study Why has work become so bad for so many and what can be done to improve it Although concerned scholars worldwide will rally to the call the reports in this volume will also be of great practical value to business persons and labour and employment lawyers everywhere

**Rescue of Business in Europe** Gert-Jan Boon,2020-01-30 This edited volume is based on the European Law Institute s ELI project Rescue of Business in Insolvency Law The project ran from 2013 to 2017 under the auspices of the ELI and was conducted by Bob Wessels and Stephan Madaus who were assisted by Gert Jan Boon The study sought to design elements of a legal framework that will enable the further development of coherent and functional rules for business rescue in Europe This includes certain statutory procedures that could better enable parties to negotiate solutions where a business becomes financially distressed Such a framework also includes rules to determine in which procedures and under which conditions an enforceable solution can be imposed upon creditors and other stakeholders despite their lack of consent The project had a broad scope and extended to consider frameworks that can be used by non financial businesses out of court and in a pre insolvency context Part I of this book the ELI Instrument as approved by the ELI Council and General Assembly features 115 recommendations on a wide variety of themes affected by the rescue of financially distressed businesses such as the legal rules for professions and courts treatment and ranking of creditors claims contract corporate and labour law as well as laws relating to transaction avoidance Part II consists of national reports that sketch the legal landscape in 13 States and of an Inventory Report on International Recommendations from Standard Setting Organisations both of which provided insight for the drafting of the Instrument This volume is designed to assist those involved in a process of law reform and those setting standards for soft law in the business rescue context

**The Interaction Between Competition Law and Corporate Governance** Florence Thépot,2019-02-14 This book explores the interaction between competition law and corporate governance It will appeal to an audience of lawyers and non lawyer competition professionals in the US UK and EU as well as other jurisdictions with competition law regimes

*In-Work Poverty in Europe* Luca Ratti,2022-07-06 In work poverty is a reality for too many persons in the European Union EU Although everyone is in agreement that poverty must be reduced rarely is there a specific focus on the plight of those who despite working are poor This important book is the first to unreservedly meet the challenge of defining measuring and comparing the legal regimes to combat in work poverty in Europe fully attending to the strengths and shortcomings of indicators and allowing the assessment of comparative best practices among the Member States The distinguished contributors each describe and analyse this complex and multidimensional phenomenon with its manifold and intertwined causes in relation to such factors as the following employment related factors wage type of contract atypical employment worker s socio demographic characteristics level of education gender age country of birth size and composition of household household work intensity and institutional factors childcare flexible work arrangements employment protection housing technological change In a major innovation the book s

methodology approaches the working poor by distinctly defining four groups of vulnerable and under represented persons VUPs with detailed statistical information on in work poverty in each group Following an in depth introduction focusing on the definition and ramifications of the concept of in work poverty including a discussion of legal scholarship and relevant EU instruments the situations in seven EU Member States Belgium Germany Italy Luxembourg the Netherlands Poland and Sweden are compared revealing important variations For each of the VUP groups these chapters explain their composition at the national level and assess the impact of regulation on the incidence of in work poverty The last chapter highlights differences and similarities in an attempt to find patterns and identify common regulatory problems and best practices The book s comparative perspective greatly assists in understanding in work poverty determinants appraising varieties of relevant national policies and stimulating the development of effective legal measures With its close analysis of the limitations of existing measurement indicators the book sheds light on the role of regulation in the prevalence and persistence of the phenomenon and equips policymakers at the EU and national levels with targeted tools to tackle this severe social problem

**European Economic Law** Alberto Santa Maria,2019-01-25 Since the last edition of this pre eminent work five years ago the European framework in the international setting has substantially changed Numerous critical developments have highlighted shortcomings in the European structure that seems incapable in its present complexity of resolving the apparently intractable problems it confronts This book s highly respected author is uncompromising either we have the courage to establish profound constitutional reforms aimed at renewing the European Union in the collective imagination or we risk contenting ourselves with merely an economic community with a far from ideal single market where even the four basic freedoms guaranteeing all actors individuals and enterprises are put under discussion This revision follows the successful format of the previous editions As before the author s intensive discussion brilliantly disentangles the complex interrelations among a vast array of economic factors As a general update the new edition takes into account such major developments as the mass immigration phenomenon effects of Brexit on EU laws and policies and the OECD s project on base erosion and profit shifting BEPS Ongoing matters covered include the following issues surrounding the euro s sustainability especially as revealed in ECJ case law lack of power of the ECB and other EU institutions in fixing the euro s exchange rate the potential EU contribution to reform of the IMF s organization and substantive rules ECJ case law on conflicts in the transfer of seat and cross border mergers the role of the European Commission in the regulation of international trade limits to the advantages lawfully acquired by multinational enterprises transfer pricing in intragroup transactions EU supervision of banking groups and international banking cooperation corporate social responsibility and codes of conduct and State aid between competition

law and the non discrimination principle Emphasizing the complex legal regime affecting undertakings in Europe today Professor Santa Maria presents a thoroughgoing legal analysis of the prominence of corporate and business enterprises in what many theorists see as the intrinsic internationality of social activity in the current era Previous editions have been applauded for their unremitting emphasis on rules introduced on the basis of multilateral agreements of an unprecedented reach within which both States and undertakings are made to recognize and to deal with one another In the new edition this perspective daunting in its scope and breadth is maintained and expanded providing a synthesizing and enlightening analysis that will be of immeasurable value to all parties with an interest academic juridical or administrative in this very important area of law
