

A movie poster for 'Alien Invasion'. The top half features a large, dark, metallic alien head with a menacing, ribbed texture, its mouth open as if screaming or roaring. Below the head, a man with long, light brown hair is shown from the chest up, his face contorted in a scream with his eyes closed and hands clutching his head. The background is a misty, dark landscape with silhouettes of trees and a fence. The title 'ALIEN INVASION' is at the bottom in a glowing green font, and the tagline 'WE DO NOT COME IN PEACE' is in the top right in a white, blocky font.

*The Ultimate Guide to Science Fiction* David Pringle, 1990      **A Reader's Guide to Contemporary Literature** William Swan Sonnenschein, 1895      **Smokin' Rockets** Patrick Lucanio, Gary Coville, 2002-06-25

Science and technology had a significant influence on American culture and thought in the years immediately following World War II. The new wonders of science and the threat of the Soviet Union as a powerful new enemy made science fiction a popular genre in radio, television, and film. Mutant creatures spawned by radioactive energy and intergalactic dictators unleashing horrific weapons upon Earth were characteristic of science fiction at the time and served as warnings to the very real dangers posed by the atomic age. This work examines science and science fiction in American culture beginning in the year World War II ended and going to 1962, the year of John Glenn's orbital flight and the Cuban Missile Crisis. The radio work of Arch Oboler and the significance of his *Rocket from Manhattan*, which aired only one month after the dropping of the first atomic bomb, and asked serious questions about the use of atomic energy are examined. Other topics are the conflict between the free world and the Communist world in the context of science fiction plot lines, the dangers of science as shown in films like *Godzilla*, *Them*, *The Day the Earth Stood Still*, and radio and television programs, the flying saucer phenomenon, and the treatment of such stories in the media, with special attention given to the 1956 documentary *UFO*, the changing and more positive depictions of scientists, television programs like *Flash Gordon* and *Space Patrol*, the shift in the balance of world power due to the successful launching of *Sputnik I* by the Russians in 1957, the end of the world theme in science fiction, and the American journey into space.

**The Complete Guide to Becoming an English Teacher** Stephen Clarke, Paul Dickinson, Jo Westbrook, 2004-03-22

I could not help but admire the breadth and scope of this text. This is a book I would recommend to all, no matter what route they take to train as a teacher of English. It is aimed at secondary teachers but would be equally useful for those preparing to teach in further education. Not only does it provide concise and balanced accounts of key pedagogic issues, it also includes a range of interesting and engaging lesson suggestions. This book does cover a lot of ground with excellent chapters on planning, assessment, teaching reading, and teaching poetry. This is a text that should accompany every student teacher of English and find its way on to the shelf of all practising teachers. This book excited me. It is written in a style that makes you want to try out activities and take up challenges. This book will encourage the student teacher to embrace the subject of English along with its associated values and debates. ESCalate Read the full review as posted on the ESCalate website, the Education Subject Centre for the Higher Education Academy. If I was training to teach English today, this is the book I would want. An extraordinarily professional handbook of good practice. Compiled by a team of university lecturers, it admirably demonstrates the way theory and practice can combine to illuminate the carried demands of being an English Teacher today. Geoff Barton, Times Educational Supplement, Teacher Magazine. I was most impressed. Anyone following the modules as they are would learn a huge amount and benefit so much from them. Camborne School and Community College Cornwall The activities were both challenging and rewarding These would be useful and would promote self reflection and the notions of personal progression and goal setting for the student Alan Jones Assistant Headteacher Simon Langton Boys School Canterbury This is a complete guide to how to become a successful teacher of English in secondary school The book enables readers to design a tailor made programme to suit their individual needs as a student teacher Either the learner or the tutor can select or combine units and activities and there is no assumption of prior knowledge This book is based on innovative teaching material developed by four institutions of higher education which has been used to develop student teachers Based on proven teaching success and the authors own experiences of teaching English in secondary schools the book s key features include full coverage of the Revised Standards for Qualified Teacher Status including creative approaches to delivering the framework for teaching English years 7 8 and 9 the cultural historical social and political models which support the English teaching curriculum English teaching for the development of an on going working pedagogy recognizing the need for dialogue and interaction with both theory and practice Inclusion Equal Opportunities Assessment and ICT included throughout with recognition of the importance of digital literacies This is an essential book for English student teachers on flexible graduate registered training schemes and traditional PGCE programmes It is an essential resource guide for their tutors for practising English teachers who want to update their skills and for those doing Continuing Professional Development Diplomas Masters Level work or PhDs
