How could Flynn have any information that would implicate the president, if the president were innocent?

Going further, why would Trump himself attempt or instruct others to attempt the 10 obstructive acts detailed in the report if he was innocent?

Why would his associates have had to stonewall, destroy evidence, tamper with witnesses, and lie to investigators if he was innocent?

Why has he claimed executive privilege over the redacted portions of the report if he's innocent and "totally exonerated?"

It still boggles my mind that conservatives don't seem to possess the basic cognitive function required to utilize simple logic.

Even if we ignore the smoke that suggests fire, obstruction regardless of being guilty or otherwise, is still illegal and should be an impeachment.

If you are obstructing because you don't want a bad hair day photo go get out to the public, illegal. If you are obstructing just to be contrarian, illegal. If you are obstructing because you're worried you'll be mistakenly found guilty, well now you're guilty of obstruction.

*The Case for Community in Online Spaces* Brooke Dunbar-Treadwell, 2023-08-01 Many believe that our sense of community is dying as the result of our digitized world. In this book, Brooke Dunbar Treadwell refutes this claim and presents a case that connection is thriving in online spaces as people share stories, practice vulnerability, and build communities. From memes to Reddit to Facebook, Dunbar Treadwell offers perspectives that combine relevant scholarship with examples from her research, pop culture, and society. She addresses some of the factors that contribute to disconnection like political division and dehumanization while also painting a picture of a society that desperately desires connection and may not always know how to find it. Ultimately, this book illustrates how community and connection have changed over time, how they are currently alive and well, while offering some important practical advice for how readers can consider their own choices in online spaces to help them find the community that they seek. Scholars of communication, media studies, and political science will find this book of particular interest.

Social media platforms have changed how we talk about what we like and dislike in our popular media. *Cultural citizenship* shows how these discussions speak to belonging to what we feel our rights and responsibilities are in today's polarized world. *Cultural Citizenship and Popular Culture* is based on audience-led research and does not privilege textual

analysis as a starting point for taking popular media use as a measure Instead it offers research tools to listen to others This book offers scholars and students of media and creative industries a means to understand their professional position as one in which they engage with rather than assume to know what users of popular cultural texts and products think and feel
