

A woman with long, wavy blonde hair is wearing a vibrant red, off-the-shoulder, floor-length gown. She is standing in front of a light-colored, textured stone wall. The title 'COURTING HIS Countess' is written in a large, elegant, dark red font, with 'COURTING HIS' in all caps and 'Countess' in a cursive script. The background wall has some faint, dark markings that look like old graffiti or carvings.

Tudor Frontiers and Noble Power Steven G. Ellis,1995 This controversial book offers a novel perspective on Tudor government and British state formation It argues that traditional studies focusing on lowland England as the normal context of government exaggerate the regime s successes by marginalizing the borderlands Frontiers were normal in early modern Europe however and central to the problem of state formation Steve Ellis argues that England s peripheries were more extensive than the core and provide the real yardstick by which the effectiveness of government can be measured He demonstrates their importance by means of a detailed comparative study of two marches Cumbria and Ireland and their ruling magnates He exposes the flaws in early Tudor policy characterized by long periods of neglect interspersed with sporadic attempts to adapt at minimal cost a centralized administrative system geared to lowland England for the government of outlying regions which had very different social structures Ellis analyses the 1534 crisis in crown magnate relations reassesses the resulting policy of centralization and uniformity and identifies the central role of these developments in establishing a British pattern of state formation Tit-bits from All the Most Interesting Books, Periodicals and Contributors in the World ,1884
