Exodus KN Tristan, 2025-11-13

In 2081 Earth is dying faster than anyone predicted. After floods destroy her veterinary practice, Lira accepts a one-way mission to Voss Colony, humanity's last hope for survival. She's tasked with raising Mars' first rabbits bred for meat, fur, and comfort on a hostile planet. From liftoff, her mission partner, Uchenna, seems off. The woman Lira trained with was rigid and meticulous. Now she's cracking jokes, skipping protocols, and forgetting things she shouldn't. Something's wrong with the rabbit program, and it's already bound for Mars.

Exodus is a propulsive dystopian prequel to Glassborn for fans of the class warfare in Red Rising, the systemic horror of The Handmaid's Tale, and the claustrophobic setting of Wool.

Blackfish City Sam J. Miller, 2018-04-17

Miller gives us an incisive and beautifully written story of love, revenge, and the power and failure of family in a scarily plausible future. Blackfish City simmers with menace and heartache, suspense and wonder. Plus, it has lots of action and a great cast of characters. Not to mention an orca and a polar bear. Ann Leckie, New York Times bestselling author and winner of the Hugo, Nebula, and Clarke Awards. After the climate wars, a floating city is constructed in the Arctic Circle, a remarkable feat of mechanical and social engineering, complete with geothermal heating and sustainable energy. The city's denizens have become accustomed to a roughshod new way of living, but the city is starting to fray along the edges. Crime and corruption have set in, and the contradictions of incredible wealth alongside direst poverty are spawning unrest and a new disease called the Breaks, which is ravaging the population. When a strange new visitor arrives, a woman riding an orca with a polar bear at her side, the city is entranced. The orcamancer, as she's known, very subtly brings together four people each living on the periphery to stage unprecedented acts of resistance. By banding together to save their city before it crumbles under the weight of its own decay, they will learn shocking truths about themselves. Blackfish City is a remarkably urgent and ultimately very hopeful novel about political corruption, organized crime, technology run amok, the consequences of climate change, gender identity, and the unifying power of human connection.
