

Housing Building Cost Guide

If you prepare residential building estimates you must have this guide.

Whether you are pricing a concrete strip footing, a new brick veneer wall, a first floor extension or a complete house, all the building cost information you need is contained in the Cordell Housing Building Cost Guide. Plus, all the labour and material costs are detailed separately.

All the labour costs are included

Every costing rate includes the labour required to fix the item into position, all material costs including appropriate allowances for waste and any plant hire costs involved. Each element is shown independently and then totalled to give you the total dollar value. This allows you to accurately compare the rate given against your own particular situation then accept the rate or make any price adjustments.

Accounting for Construction Rick Best, Jim Meikle, 2019-03-27 Accounting for Construction follows on from Measuring Construction edited by the same team. It extends the coverage of some of the material in the first volume and expands the range of related topics to include *inter alia* shadow economies, accounting for informal construction and the treatment of the built environment sector in national accounts. Taken together the two volumes collate a range of topics that are only addressed if addressed at all in occasional academic papers and the publications of bodies such as national statistical offices and the World Bank. Accounting for Construction presents international examples from the UK, Australia and New Zealand and from both academic and professional contributors. This book is essential reading for all researchers and professionals interested in construction economics, construction management and anyone interested in how the construction industry affects the global economy in ways previously under represented in the literature. **Charter**, 1995 **Post Magazine and Insurance Monitor**, 1930 **Ulrich's International Periodicals Directory** Carolyn Farquhar Ulrich, 1999 Contains essential bibliographic and access information on serials published throughout the world. **Australian Periodicals in Print**, 1987
