Management and Public Health Response, Volume II (volume I.B) Thomas Rawson,Marco Iosa,Fabrizio Ricci,Zisis Kozlakidis,Longxiang Su,Catherine Ropert,Jonathan Kantor,Constantinos Tsiotis,Susan Christina Welburn,Burc Barin,Jiufeng Sun,Eugenie Ruth Lumbers,2023-05-31 Almost nine months since the first recorded case the novel betacoronovirus severe acute respiratory syndrome coronavirus 2 SARS CoV 2 has now passed 18 million confirmed cases The multi disciplinary work of researchers worldwide has provided a far deeper understanding of COVID 19 pathogenesis clinical treatment and outcomes lethality disease spread dynamics period of infectivity containment interventions as well as providing a wealth of relevant epidemiological data With 27 vaccines currently undergoing human trials and countries worldwide continuing to battle case numbers or prepare for resurgences the need for efficient high quality pipelines for peer reviewed research remains as crucial as ever *The Measurement of Information Integrity* Michael Seadle,2021-09-01

Arguing that there never was a time when politicians did not prevaricate and when some communities did not doubt conclusions that others considered to be facts The Measurement of Information Integrity puts the post truth era in context and offers measures for integrity in the modern world Incorporating international examples from a range of disciplines this book provides the reader with tools that will help them to evaluate public statements especially ones involving the sciences and scholarship It also provides intellectual tools to those who must assess potential violations of public or academic integrity Many of these tools involve measurement mechanisms ways of putting cases into context and a recognition that few cases are simple black and white violations Demonstrating that a binary approach to judging research integrity fails to recognize the complexity of the environment Seadle highlights that even flawed discoveries may still contain value Finally the book reminds its reader that research integrity takes different forms in different disciplines and that each one needs separate consideration even if the general principles remain the same for all The Measurement of Information Integrity will help those who want to do research well as well as those who must ascertain whether results have failed to meet the standards of the community It will be of particular interest to researchers and students engaged in the study of library and information science **The**
