## **Conservatives Without Conscience:**

Conservatives Without Conscience John W. Dean, 2006-07-11 On the heels of his national bestseller *Worse Than Watergate* John Dean takes a critical look at the current conservative movement In *Conservatives Without Conscience* John Dean places the conservative movement's inner circle of leaders in the Republican Party under scrutiny Dean finds their policies and mind set to be fundamentally authoritarian and as such a danger to democracy By examining the legacies of such old line conservatives as J Edgar Hoover Spiro Agnew and Phyllis Schlafly and of such current figures as Dick Cheney Newt Gingrich and leaders of the Religious Right Dean presents an alarming record of abuses of power His trenchant analysis of how conservatism has lost its bearings serves as a chilling warning and a stirring inspiration to safeguard constitutional principles

**Conservatives Without Conscience** John Wesley Dean, Robertson Dean, 2006 Over the past two decades American electoral politics has been transformed by the rise of a newly energized conservative movement a movement that is highly organized extremely well funded and confidently ambitious in achieving its goals for both the government and the culture The result has been not only a radical shift in the program and politics of the Republican Party but a decisive change in the nature of political discourse which has become disturbingly confrontational vicious and hypocritical Once again Dean employs his distinctive knowledge and understanding of Washington politics and process to examine the conservative movement's current inner circle of leaders its policies and most notably its mindset which he identifies as fundamentally authoritarian in nature

**Liberals Without Logic** Peter Thomas, 2006-08-01 In July 2006 John W Dean published *Conservatives Without Conscience* a book charging the Bush administration with using religious morality and propaganda like tactics to promote big business interests and silence alternate perspectives at the expense of the nation's constitutional foundations In this book Peter Thomas explains why *Conservatives Without Conscience* is not persuasive

**God in the Corridors of Power** Michael Ryan, Les Switzer, 2009-08-25 *God in the Corridors of Power* Christian Conservatives the Media and Politics in America is a comprehensive study of Christian conservative power in America's political culture how it was achieved how it is maintained and where it is going It came about in part because of an enduring influence in the school room the seminary and in the pulpit and in part because conservatives are so skilled at using commercial and non commercial media including religious

media to disseminate their views to broader audiences Though their power has waxed and waned they continue to be a potent force in public policy today The authors argue that the astonishing electoral successes of Christian conservatives at all levels of national state and local government was made possible by linking political social media and religious interests with an emerging consensus about what constitutes a conservative mindset in American politics Christian conservatives unquestionably have been the most significant component in a coalition of religious conservatives traditionalist conservatives and neoconservatives that has driven the Republican Party now for almost two generations This multifaceted understanding of Christian conservative activists in religion and politics traces the impact Christian conservatives have had on American Christianity as a whole while also examining the limitations imposed on the Christian conservative agenda by American civil religion the Constitution and case law The authors explore women s reproductive rights in the debate over contraception and abortion and gay civil rights in the debate over gay marriage and family rights The debate over intelligent design and evolution is examined in the context of the campaign to transform public school education The run up to the wars in Afghanistan and Iraq is scrutinized against the background of the declared war on terrorism While the conservative religious and secular coalition within the Republican Party began to fragment even before the end of George W Bush s first term in office it remained a powerful force in the 2004 and 2008 elections The book concludes with some thoughts about the impact of Christian conservatives in politics media and religion in the future

Old School Still Matters Brian L. Fife, 2013-08-12 Can public schools in America be saved This book considers theory current practice and the common school ideal through a historical lens to arrive at practical suggestions for reforming contemporary public education Despite dramatic sweeping changes in recent decades a strong case can be made for guiding the reformation of contemporary public education in the United States on common school ideology of the nineteenth century The author argues that the common school remains a public institution capable of preparing America's youth to contribute to the community in a positive manner and that education must be treated as a public good where all children regardless of social class have a right to a quality education The work includes a thorough overview of Horace Mann's writings on K 12 public education that support the common school ideal concepts that are over 150 years old yet still highly relevant today

science and technology of effective communication so you can apply it to your own efforts to counter right wing disinformation As Hartmann explains political persuasion is as much about biology as ideology about knowing how the brain processes information and how that influences the way people perceive messages make decisions and form a worldview Throughout the book he shows you precisely how to master this technology how to crack the communications code providing examples dating from the time of the Founding Fathers to the present day **The Publishers Weekly** ,2007 **Mass Surveillance and State Control** Elliot D. Cohen,2010-10-15 A global system of mass warrantless government surveillance now imperils privacy and other civil liberties essential to sustaining the free world This project to unilaterally totally control information flow is a product of complex ongoing interplay between technological political legal corporate economic and social factors including research and development of advanced digital technologies an unremitting war on terror relaxed surveillance laws government alliances with information technology companies mass media manipulation and corporate globalism This book details these and other factors contributing to this degenerative trend specifies recommendations for constructive change and provides a platform for grassroots efforts to stop the decline before it is too late **The Book Review Digest** ,2006 *American Conservatism* Paul Lyons,2009 This book offers a rare opportunity to read about how a scholar s teaching informs his research in this case an examination of the nature of American conservatism It is based on an interdisciplinary senior seminar Lyons taught in Spring 2006 His teaching log including student comments from an electronic conferencing system gives a vivid sense of the daily frustrations and triumphs Lyons reflects on some of the most difficult issues in higher education today such as how to handle racism and political passions in the classroom as well as how a teacher presents his own political convictions Lyons begins with the premise that most universities have been negligent in helping undergraduates understand a movement that has shaped the political landscape for half a century In addition in a series of essays that frame the teaching log he makes the case that conservatives have too often failed to adhere to basic Burkean principles and that the best of conservatism has often appeared as a form of liberalism from thinkers such as Hannah Arendt Reinhold Niebuhr and George Kennan The essays also cover the history of conservatism conservative use of the city on a hill metaphor and an examination of how the promise of Camelot sophistication was subverted by a resurgence of right wing populism *You Don't Know Me* Win McCormack,2008-08-01 YOU DON T KNOW ME unearths the scandals that don t quite align with the Republican Party s so called family values From Gingrich s serial affairs to O Reilly s lewd telephone conversations to Horsley s barnyard liaisons this compendium will shock readers and enlighten voters as to what happens behind the closed doors of the right YOU DON T KNOW ME A CITIZEN S GUIDE TO REPUBLICAN FAMILY VALUES outlines the hypocrisy behind some key G O P platforms In an easy to use A Z format Win McCormack demonstrates right wing depravity from adultery to zoophilia With a mix of high profile offenders such as Newt Gingrich Rudy Giuliani Bill O Reilly and Larry Craig and under the radar scandals *You Don t Know Me* makes a strong case that Republican finger
