"Before I move from the garden to the next, I must let you know of a secret that will offer you great aid in your personal growth. This secret is based on the ancient principle that everything is always created twice, first in the mind and then in reality. I have shared already that thoughts are things, material messengers that we send out to influence our physical world. I have also informed you that if you hope to make remarkable improvements in your outer world you must first start within and change the caliber of your thoughts.

"The Sages of Sivana had a wonderful way to ensure that their thoughts were pure and wholesome. This technique was also highly effective in transforming their desires, however simple, into reality. The method will work for anyone. It will work for a young lawyer who seeks financial abundance just as it will work for a mother seeking a richer family life or a salesperson seeking to close more sales. The technique was known to the sages as the Secret of the Lake. To apply it, these teachers would rise at 4:00 a.m., as they felt that the early morning possessed magical qualities from which they could benefit. The sages would then travel along a series of steep and narrow mountain paths that eventually led them to the lower reaches of the region they inhabited. Once there, they would walk along a barely visible trail lined with magnificent pine trees and exotic flowers until they arrived at a clearing. At the edge of the clearing was an aqua blue lake covered by thousands of tiny white lotuses. The water of the lake was so clear that the bottom was visible. Truly a miraculous sight. Narratives, Nerdfighters, and New Media Jennifer Burek Pierce, 2020-11-15 For decades we've been warned that video killed the radio star, and more recently that social media has replaced reading. *Nerdfighteria*, a first of its kind online literary community with nearly three million members, challenges these assumptions. It is the brainchild of brothers Hank and John Green, who provide literary-themed programming on their website and YouTube channel, including video clips from John, a best-selling author most famous for his young adult book *The Fault in Our Stars*. These clips not only give fans personal insights into his works and the writing process, but they also provide unique access to the author, inspiring fans to create their own fan art and make connections with one another. In the twenty-first century, reading and watching videos are related activities that allow people to engage with authors and other readers. Whether they turn to *The Fault in Our Stars* or titles by lesser-known authors, *Nerdfighters* are readers. Incorporating thousands of testimonials about what they read and why, Jennifer Burek Pierce not only sheds light on this particular online community, she also reveals what it tells us about the changing nature of reading in the digital age. In *Nerdfighteria*, we find a community who shows us that being online doesn't mean disinterest in books.
