Chinese Foreign Policy An Introduction:

Chinese Foreign Policy Marc Lanteigne, 2016 This updated and expanded 3rd edition of Chinese Foreign Policy seeks to explain the processes actors and current history behind China's international relations as well as offering an in depth look at the key areas of China's modern global relations Among the key issues are The expansion of Chinese foreign policy from regional to international interests China's growing economic power in an era of global financial uncertainty Modern security challenges including maritime security counter terrorism and protection of overseas economic interests The shifting power relationship with the United States as well as with the European Union Russia and Japan China's engagement with a growing number of international and regional institutions and legal affairs The developing great power diplomacy of China New chapters address not only China's evolving foreign policy interests but also recent changes in the international system and the effects of China's domestic reforms In response to current events sections addressing Chinese trade bilateral relations and China's developing strategic interest in Russia and the Polar Regions have been extensively revised and updated This book will be essential reading for students of Chinese foreign policy and Asian international relations and highly recommended for students of diplomacy international security and IR in general

Chinese Foreign Policy Barbara Barnouin, Yu

Changgen, 2013-10-28 First published in 1998 In this study what is proposed here is first of all to examine the effect it had on the very functioning of the Chinese Ministry of Foreign Affairs and how the turmoil of the Cultural Revolution of which the country had become a victim spilled over to this highly elitist and prestigious Ministry In summary it focuses on the chaos that engulfed the institution

Chinese Foreign Relations Robert G. Sutter, 2012-01-26 This comprehensive introduction to Chinese foreign relations examines the opportunities and limits China faces as it seeks growing international influence Tracing the record of twists and turns in Chinese foreign relations since the end of the Cold War Robert G Sutter provides a nuanced analysis that shows that despite its growing power Beijing is hampered by both domestic and international constraints Newly revised this edition features more extensive treatment of China's role in the international economy and greater discussion of its relations with the developing world Overall Sutter's balanced and thorough assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant Facing numerous contradictions and trade offs they move cautiously as they deal with a complex global environment

Chinese Foreign Policy Thomas W. Robinson, David L. Shambaugh, 1995 This study of Chinese foreign policy is intended for academics and graduates of Chinese studies and of international relations international economics and those interested in decision making theory

Chinese Foreign Policy Think Tanks and China's Policy Towards Japan Xuanli Liao, 2006 Examines Chinese foreign policy think tanks and their influence in China's foreign policy towards Japan between the late 1970s and late 1990s Through case studies this book demonstrates a growing pluralistic trend in post Mao China's foreign policy making process

Chinese Foreign Relations Robert G. Sutter, 2020-10-30 With new assertiveness and prominence China under President Xi Jinping is rightly

considered an emerging and aggressive superpower backed by growing economic and impressive military strength In this meticulous and balanced assessment Robert G Sutter traces China s actions under Xi Jinping including the many challenges they post to the international status quo He provides a comprehensive analysis of newly prominent Chinese unconventional levers of power and influence in foreign affairs that were previously disguised hidden denied or otherwise neglected or unappreciated by specialists Sutter considers the domestic issues that preoccupy Beijing and the global factors economic and political factors that complicate and constrain as well as enhance China s advance to international prominence China Rising Guoli Liu, This comprehensive text examines Chinese foreign policy with a focus on the recent dramatic changes in China s place and role in the world Covering both the economic and security dimensions of China s foreign policy making as well as its key bilateral relationships it offers students a clear and systematic introduction to the key challenges and prospects posed by China s rise Using a wealth of sources the book explores how the Chinese perceive their country s growing role and considers whether Chinese foreign policy is still conducted as it has been traditionally in line with what the Chinese regard as being core values and national interests particularly a territorial and sovereign integrity political independence and modernization as well as a great power status Written by an expert in Chinese politics and foreign policy this accessible introduction offers a unique analysis of contemporary China and the economic and security aspects of foreign policy from the twentieth century onwards It also includes the under analysed relationships between China and other emerging powers This text is an essential for those studying China within International Relations and Politics degrees or who are interested in the development of China s foreign policy and its evolving place in the world order **Chinese Foreign Policy/h** Robert G Sutter,1978-01-19 **Security, Strategy, and the Logic of Chinese Foreign Policy** Jonathan D. Pollack,1981 *Chinese Foreign Policy Under Xi* Tiang Boon Hoo,2017-02-17 There has been a discernable calibration of Chinese foreign policy since the ascension of Xi Jinping to the top leadership positions in China The operative term here is adjustment rather than renovation because there has not been a fundamental transformation of Chinese foreign policy or setting up of a new kitchen in foreign affairs Several continuities in Chinese diplomacy are still evident The People s Republic of China PRC has not wavered from its overarching strategy of rising through peaceful development The PRC is still an active participant and leader in or shaper of global and regional regimes even as it continues to push for reforms of the extant order towards an arrangement which it thinks will be less unjust and more equitable It seeks to better link up with the international track perhaps even more so under Xi s stewardship Yet amidst these continuities it is clear that there have been some profound shifts in China s foreign policy From the enunciation of strategic slogans such as the Asian security concept and major country diplomacy with Chinese characteristics the creation of the China led and initiated Asian Infrastructure Investment Bank the pursuit of Xi s signature foreign policy initiative the One Belt One Road to a purportedly more assertive and resolute defense of China s maritime territorial interests in East Asia examples of these foreign policy calibrations both

patent and subtle abound In short this has not been a complete metamorphosis but there are real changes with important repercussions for China and the international system The burning questions then are What Where How and Why What are these key foreign policy adjustments Where and how have these occurred in Chinese diplomacy And what are the reasons or drivers that inform these changes This book seeks to capture these changes Featuring contributions from academics think tank intellectuals and policy practitioners all engaged in the compelling business of China watching the book aims to shed more light on the calibrations that have animated China s diplomacy under Xi a leader who by most accounts is considered the most powerful Chinese numero uno since Deng Xiaoping

Reform, Identity and Chinese Foreign Policy Zhiyu Shi,2000 **Chinese Foreign Policy Toward the Third World in the 1970's** Young Mun Kim,1979 **The European Union and China** Thomas Christiansen,Emil Kirchner,Uwe Wissenbach,2018-12-12 This accessible text offers a comprehensive analysis of the European Union EU China relationship as one of the most important in global politics today Both are major players on the world stage accounting for 30% of trade and nearly a quarter of the world s population This text shows how despite many differences in political systems and values China and the EU have developed such a close regular set of interactions at multiple levels from political strategic to economic and individual The authors start with an historical overview of the domestic politics and foreign policy apparatus of each partner to show the context in which external relations are devised From this foundation each key dimension of the relationship is analysed from trade and monetary policy security culture and society The authors show the relative merits of different theoretical perspectives and outline what is next for this complex ever changing relationship At every step the success of each partner in persuading the other of changing their position s for key strategic interests is explored What emerges is a multifaceted picture of relations between two sides that are fundamentally different kinds of actors in the international system yet have many mutual interests and a common stake in the stability of global governance The first major text to offer an accessible introduction to the multifaceted nature of EU China relations this book is an ideal companion for upper undergraduate and postgraduate students on Politics International Relations and European Studies courses Chinese Foreign Policy Evan Luard,1957
