Alberto Manguel, Craig Stephenson

Curiosit Alberto Manguel:

Curiosity Alberto Manguel, 2015-01-01 An eclectic history of human curiosity a great feast of ideas and a memoir of a reading life from an internationally celebrated reader and thinker Curiosity has been seen through the ages as the impulse that drives our knowledge forward and the temptation that leads us toward dangerous and forbidden waters The question Why has appeared under a multiplicity of guises and in vastly different contexts throughout the chapters of human history Why does evil exist What is beauty How does language inform us What defines our identity What is our responsibility to the world In Alberto Manguel's most personal book to date the author tracks his own life of curiosity through the reading that has mapped his way Manguel chooses as his guides a selection of writers who sparked his imagination He dedicates each chapter to a single thinker scientist artist or other figure who demonstrated in a fresh way how to ask Why Leading us through a full gallery of inquisitives among them Thomas Aquinas David Hume Lewis Carroll Rachel Carson Socrates and most importantly Dante Manguel affirms how deeply connected our curiosity is to the readings that most astonish us and how essential to the soaring of our own imaginations

A Reader on Reading Alberto Manguel, 2010-02-18 In this major collection of his essays Alberto Manguel whom George Steiner has called the Casanova of reading argues that the activity of reading in its broadest sense defines our species We come into the world intent on finding narrative in everything writes Manguel landscape the skies the faces of others the images and words that our species create Reading our own lives and those of others reading the societies we live in and those that lie beyond our borders reading the worlds that lie between the covers of a book are the essence of A Reader on Reading The thirty nine essays in this volume explore the crafts of reading and writing the identity granted to us by literature the far reaching shadow of Jorge Luis Borges to whom Manguel read as a young man and the links between politics and books and between books and our bodies The powers of censorship and intellectual curiosity the art of translation and those numinous memory palaces we call libraries also figure in this remarkable collection For Manguel and his readers words in spite of everything lend coherence to the world and offer us a few safe places as real as paper and as bracing as ink to grant us room and board in our passage

Weak Nationalisms Douglas Dowland, 2019-07 The question What is America has taken on new urgency Weak Nationalisms explores the emotional dynamics behind that question by examining how a range of authors have attempted to answer it through nonfiction since the Second World War revealing the complex and dynamic ways in which affects shape the literary construction of everyday experience in the United States Douglas Dowland studies these attempts to define the nation in an eclectic selection of texts from writers such as Simone de Beauvoir John Steinbeck Charles Kuralt Jane Smiley and Sarah Vowell Each of these texts makes use of synecdoche and Weak Nationalisms shows how this rhetorical technique is variously driven by affects including curiosity discontent hopefulness and incredulity In exploring the function of synecdoche in the creative construction of the United States Dowland draws attention to the evocative politics and literary richness of

nationalism and connects critical literary practices to broader discussions involving affect theory and cultural representation
