### • Curriculum Evaluation Chart •

The following chart is designed to help you compare SOAR<sup>®</sup> to other programs. While we acknowledge that this chart has an inherent bias towards our program, we hope it will help you gain a more detailed insight into the content of the program and careful intentions of the author. This insight will ultimately help you make your own judgment of the program.

Additional rows are included on the last page for you to add your own comments and observations.

Questions to Consider	SOAR <sup>®</sup> Learning & Soft Skills	Program 2
<b>What age level is the program designed/intended for...elementary, middle school, high school, or college?</b>	SOAR <sup>®</sup> was designed for middle and high school. We do, however, have several schools using the program in upper elementary (5 <sup>th</sup> & 6 <sup>th</sup> grade) as well as at the college level.	
<b>How complex are most strategies? Are they cumbersome or simplified? How likely are students to do these on their own initiative? Will students save time and increase effectiveness?</b>	SOAR <sup>®</sup> was built around the concept of being student-friendly. Our three student-friendly principles are: strategies must save time, they must be effective, and they must apply across all content areas.	
<b>Are the strategies student-directed or teacher-directed? Do you want strategies that will increase teachers' effectiveness or strategies that will empower students to take initiative of their own learning?</b>	SOAR <sup>®</sup> is designed to be student-directed. Of course, teachers will introduce strategies and encourage regular usage, but the goal is for students to use them on their own. For example, concept maps are a common 'study skill,' but students often do not know when to use a concept map. Such strategies are not included in SOAR <sup>®</sup> .	
<b>Does the program teach skills that are used in college and career?</b>	SOAR <sup>®</sup> starts with basic skills and strategies
