Tone in Lexical Phonology Douglas Pulleyblank, 1986-06-30 This book is a revised

version of my Ph D dissertation that was submitted to the Massachusetts Institute of Technology in 1983 Although much of the analysis and argumentation of the dissertation has survived rewriting the organization has been considerably changed To Paul Kiparsky and Morris Halle I owe a major debt Not only has it been a great privilege to work on phonology with both of them but it is hard to imagine what this piece of research would have looked like without them They of course may well imagine a number of appropriate ways in which the work could be different had I not been involved In addition special thanks are due to Ken Hale the third member of my thesis committee Our discussions of a variety of topics including tone helped me to keep a broader outlook on language than might have otherwise been the result of concentrating on a thesis topic

Handbook of Communication Disorders Amalia Bar-On, Dorit Ravid, Elitzur Dattner, 2018-04-23 The domain of Communication Disorders has grown exponentially in the last two decades and has come to encompass much more than audiology speech impediments and early language impairment The realization that most developmental and learning disorders are language based or language related has brought insights from theoretical and empirical linguistics and its clinical applications to the forefront of Communication Disorders science The current handbook takes an integrated psycholinguistic neurolinguistic and sociolinguistic perspective on Communication Disorders by targeting the interface between language and cognition as the context for understanding disrupted abilities and behaviors and providing solutions for treatment and therapy Researchers and practitioners will be able to find in this handbook state of the art information on typical and atypical development of language and communication disabilities across the human lifespan from infancy to the aging brain covering all major clinical disorders and conditions in various social and communicative contexts such as spoken and written language and discourse literacy issues bilingualism and socio economic status
