Vakoch, 2021-04-29 Caught as we are in a grave climate crisis that seems more irreversible with every passing year our literary portrayals of the future often feature the dystopian collapse of the world as we know it Science fiction explores how we got here while pointing toward a more hopeful path forward From an ecofeminist perspective a core cause of our current ecological catastrophe is the patriarchal domination of nature playing out in parallel with the oppression of women As an alternative to dystopian futures that seem increasingly inevitable ecofeminist science fiction helps us conjure utopias that promote environmental sustainability based on more egalitarian human relationships *Dystopias and Utopias on Earth and Beyond Feminist Ecocriticism of Science Fiction* explores the fictional worlds of such canonical novelists as Margaret Atwood Octavia Butler Ursula K Le Guin Doris Lessing and Joan Slonczewski as well as those of lesser known science fiction writers as they collectively probe humanity's greatest existential threats Contributors from five continents provide compelling analyses of far future dystopias on Earth that are all too easy to imagine becoming reality if humankind's current trajectory continues as well as provocative insights into science fiction utopias set on idyllic planets orbiting distant stars which offer liberatory alternatives that might someday be actualized in the real world By examining the links between the destruction of the environment and the domination of women *Dystopias and Utopias on Earth and Beyond* provides the tools to counteract those intertwined oppressions helping create a foundation for a truly habitable world

haunted mother and her recovering addict brother They have both stabilized for the moment but Lizzie has little chance to spend her new free time with husband and son before her old mentor Sylvia Liller makes a proposal Sylvia has become famous for her prescient podcast Hell and High Water and wants to hire Lizzie to answer the mail she receives from left wingers worried about climate change and right wingers worried about the decline of western civilization As Lizzie dives into this polarized world she begins to wonder what it means to keep tending your own garden once you ve seen the flames beyond its walls When her brother becomes a father and Sylvia a recluse Lizzie is forced to address the limits of her own experience but still she tries to save everyone using everything she s learned about empathy and despair conscience and collusion from her years of wandering the library stacks And all the while the voices of the city keep floating in funny disturbing and increasingly mad Offill s fragmentary structure evokes an unbearable emotional intensity something at the core of the story that cannot be narrated directly by straight chronology because to do so would be like looking at the sun
