Hamilton, 2019-01-28 Everyone is born curious So what happens Why do some people become less curious than others For individuals leaders and companies to be successful they must determine the things that hold curiosity hostage Think of the most innovative companies and you will notice they employ people who do not accept the status quo they aren't reluctant to change they evolve with the times they look for problems to solve and focus on asking questions Drawing on decades research and incorporating interviews from some of the top leaders of our time Hamilton examines the factors that impact curiosity including fear assumptions technology and environment **FATE** Through her ground breaking research she has created the Curiosity Code Index CCI assessment to determine how these factors have impacted curiosity and to provide an action plan to transform individuals and organizations to help improve areas impacted by curiosity including innovation engagement creativity and productivity I have no special talents I am only passionately curious Albert Einstein **The**

Curious Ian Leslie, 2015-06-04. A fascinating multi-disciplinary analysis of why curiosity makes the world go round. A lovely erudite exploration of what it is that makes us human. Independent on Sunday: I have no special talents. I am only passionately curious. Albert Einstein. Everyone is born curious. But only some retain the habits of exploring, learning and discovering as they grow older. Which side of the curiosity divide are you on? In *Curious* Ian Leslie makes a passionate case for the cultivation of our desire to know. Curious people tend to be smarter, more creative and more successful. But at the very moment when the rewards of curiosity have never been higher, it is misunderstood and undervalued and increasingly practised only by a cognitive elite. Drawing on fascinating research from psychology, sociology and business, *Curious* looks at what feeds curiosity and what starves it and uncovers surprising answers. Curiosity isn't a quality you can rely on to last a lifetime, but a mental muscle that atrophies without regular exercise. It's not a gift, but a habit that parents, schools, workplaces and individuals need to nurture if it is to thrive. Filled with inspiring stories, case studies and practical advice, *Curious* will change the way you think about your own mental life and that of those around you. **A**
