Project AOSP is tasked with the maintenance and further development of Android. Android was listed as the best selling Smartphone platform world wide in Q4 2010 by Canalys. Android has a large community of developers writing applications apps that extend the functionality of the devices. There are currently more than 250 000 apps available for Android. Android Market is the online app store run by Google though apps can also be downloaded from third party sites. Developers write primarily in the Java language controlling the device via Google developed Java libraries. The unveiling of the Android distribution on 5 November 2007 was announced with the founding of the Open Handset Alliance a consortium of 80 hardware software and telecom companies devoted to advancing open standards for mobile devices. Google released most of the Android code under the Apache License a free software and open source license. The Android open source software stack consists of Java applications running on a Java based object oriented application framework on top of Java. *CyanogenMod* Christian Immler, 2016-05-27.
