Framework Picture Book Toddlers:

The Essential Guide to Children's Books and Their Creators , Upon publication Anita Silvey's comprehensive survey of contemporary children's literature Children's Books and Their Creators garnered unanimous praise from librarians, educators, and specialists interested in the world of writing for children. Now The Essential Guide to Children's Books and Their Creators assembles the best of that volume in one handy, affordable reference, geared specifically to parents, educators, and students. This new volume introduces readers to the wealth of children's literature by focusing on the essentials: the best books for children, the ones that inform, impress, and most important, excite young readers. Updated to include newcomers such as J.K. Rowling and Lemony Snicket, and to cover the very latest on publishing and educational trends, this edition features more than 475 entries on the best-loved children's authors and illustrators, numerous essays on social and historical issues, thirty personal glimpses into craft by well-known writers, illustrators, and critics, and invaluable reading lists by category. The Essential Guide to Children's Books and Their Creators summarizes the canon of contemporary children's literature in a practical guide essential for anyone choosing a book for or working with children.

Reading in the Digital

Age: Young Children's Experiences with E-books Ji Eun Kim, Brenna Hassinger-Das, 2019-07-23 This edited book focuses on affordances and limitations of e-books for early language and literacy features and design of e-books for early language and literacy print versus e-books in early language and literacy development and uses of and guidelines for how to use e-books in school and home literacy practices. Uniquely this book includes critical reviews of diverse aspects of e-books e.g. features and e-book uses e.g. independent reading for early literacy as well as multiple examinations of e-books in home and school contexts using a variety of research methods and/or theoretical frames. The studies of children's engagement with diverse types of e-books in different social contexts provide readers with a contemporary and comprehensive understanding of this topic. Research has demonstrated that ever-increasing numbers of children use digital devices as part of their daily routine. Yet despite children's frequent use of e-books from an early age, there is a limited understanding regarding how those e-books are actually being used at home and school. As more e-books become available, it is important to examine the educational benefits and limitations of different types of e-books for children. So far, studies on the topic have presented inconsistent findings regarding potential benefits and limitations of e-books for early literacy activities e.g. independent reading, shared reading. The studies in this book aim to fill such gaps in the literature.

The Transformative Potential of LGBTQ+ Children's Picture Books

Jennifer Miller, 2022-05-23 2023 CHOICE Outstanding Academic Title In The Transformative Potential of LGBTQ Children's Picture Books Jennifer Miller identifies an archive of over 150 English language children's picture books that explicitly represent LGBTQ identities, expressions, and issues. This archive is then analyzed to explore the evolution of LGBTQ characters and content from the 1970s to the present. Miller describes dominant tropes that emerge in the field to analyze historical shifts in representational practices which she suggests parallel larger

sociocultural shifts in the visibility of LGBTQ identities. Additionally, Miller considers material constraints and possibilities affecting the production, distribution, and consumption of LGBTQ children's picture books from the 1970s to the present. This foundational work defines the field of LGBTQ children's picture books thoroughly yet accessibly. In addition to laying the groundwork for further research, *The Transformative Potential of LGBTQ Children's Picture Books* presents a reading lens critical optimism used to analyze the transformative potential of LGBTQ children's picture books. Many texts remain attached to heteronormative family forms and raced and classed models of success. However, by considering what these books put into the world as well as problematic aspects of the world reproduced within them, Miller argues that LGBTQ children's picture books are an essential world-making project and seek to usher in a transformed world as well as a significant historical archive that reflects material and representational shifts in dominant and subcultural understandings of gender and sexuality.

Human-Computer Interaction Masaaki Kurosu, Ayako Hashizume, 2025-05-31. This seven volume set constitutes the refereed proceedings of the Human Computer Interaction thematic area of the 27th International Conference on Human Computer Interaction HCII 2025 held in Gothenburg, Sweden, during June 22-27, 2025. The HCI Thematic Area constitutes a forum for scientific research and addressing challenging and innovative topics in Human Computer Interaction theory, methodology and practice including, for example, novel theoretical approaches to interaction, novel user interface concepts and technologies, novel interaction devices, UI development methods, environments and tools, multimodal user interfaces, emotions in HCI, aesthetic issues in HCI, and children evaluation methods and tools, and many others.

Filming the Children's Book Hermansson, Casie Hermansson, 2018-12-19. Just as a work of self-reflexive metafiction and the experience of reading it differ from other types of literature, the work and the experience of viewing films that adapt metafiction are distinct from those of other films and from other film adaptations of literary works. This book explores the adaptation of children's metafictions including works such as *Inkheart*, *The Invention of Hugo Cabret*, and the *Harry Potter* series. Not only are the plot devices of books and reading explored on screen in these adaptations, but so is the nature of transmedial adaptation itself, the act of representing one work of art in another medium. Analysing the work done by children's metafiction and the experience of reading it, Casie E. Hermansson situates the adaptations of these types of books to film within contemporary adaptation criticism.

Children's Librarianship Sheila G. Bannister Ray, 1979. William Thacker is the owner of a bookshop in the heart of Notting Hill in London. One day the world's most famous actress, Anna Scott, comes into his shop. So begins a tale of romance.
