Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 *Youth Digital Health and Online Platforms* focuses on young people s use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy and service delivery Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues support young people s agency in health and that young people can benefit from dealing with health issues with peers The work is based on the digital ethnography of teenagers subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit s pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people

How to Defeat a Demon King in Ten Easy Steps Andrew Rowe, 2025-04-04 The LitRPG bestseller releasing in a stunning new deluxe hardcover edition now with a new Afterword *How to Defeat a Demon King in Ten Easy Steps* is an endlessly inventive and entertaining love letter to all of us underdogs who spent countless hours with a game controller in hand daydreaming about how we would save the realm Matt Dinniman New York Times bestselling author of the *Dungeon Crawler Carl* series For thousands of years there has been a cycle a Demon King rises and conquers and a Hero is reborn a hundred years later to defeat him Each time civilizations are ground to dust

beneath the Demon King's hordes but humanity has remained secure in the belief that a Hero of legend will always save them. There's just one slight problem. It's only been twenty-three years since the Demon King's latest rise and this time he's already conquered more than half the world. If humanity simply waits for the Hero's return, there may be no world left for him to save. And so Yui Shaw sets out with an ambitious plan. A ten-step plan. She'll find a way to obtain the Hero's legendary sword. She'll earn obscure classes, gain levels, and increase her skills. She'll travel to the meticulously crafted dungeons that seem designed for one specific Hero to complete. And if she's truly unfortunate, she might even find a fairy. **Emotional**

Appeals in Argumentation Barbara Konat, 2025-11-15 This book offers an investigation of emotional appeals (pathos) in natural language argumentation. Building on rhetorical theory, psychology, and computational linguistics, it introduces an interactional model of pathos to explain how emotions are elicited and expressed in persuasive discourse. The book traces emotional appeals from classical rhetoric to modern AI-driven methods, showing how emotional language influences perceived argument strength in political, educational, and online contexts. It combines theoretical foundations with empirical studies, including psychological experiments, corpus-based analyses, and large-scale computational modeling using emotion lexicons and large language models (LLMs). By incorporating philosophy, psycholinguistics, and NLP, the book aims to present pathos as a legitimate and measurable element of real-world argumentation. Cloud Native Development with Google

Cloud Daniel Vaughan, 2023-11-10 Cloud native development gives you the power to rapidly build secure and scale software. But you still need to navigate many potential pitfalls along the way. Through practical examples, this book demonstrates how to use Google Cloud as a laboratory to enable rapid innovation, a factory to automate build and testing, and a citadel to operate applications at scale securely. Author Daniel Vaughan shows you how to take applications from prototype to production by combining Google Cloud services, a cloud native programming model, and best practices. By following an example project from start to finish, developers, architects, and engineering managers working with the Google Cloud Platform will learn how to build and run cloud native applications on Google Cloud with confidence. With this book, you will understand cloud native development concepts, including microservices, containerization, and event-driven architecture. Learn Google Cloud services that specifically support this development style: compute, persistence, messaging, DevOps, security, and networking, and observability. Confidently build cloud native applications on Google Cloud. Learn how to address nonfunctional requirements such as security, observability, and testing. Successfully make the transition from initial proofs of concept and prototypes to production systems. **A Law Dictionary of Words, Terms, Abbreviations and Phrases**
