**Mitigating Climate Change** Anshuman Khare, Terry Beckman, 2013-05-21 With ever increasing trends in urban consumption and production practices a call for action to mitigate Climate Change is often seen as a way to foster sustainable development. Considerable attention is now being paid to determine what urban sustainability would include. Today there is a pressing need to broaden our knowledge and apply new concepts and frameworks to development of modern cities. Building on the foregoing this book attempts to bring together and discuss concepts tools frameworks and best practices to cope with the emerging challenges faced by cities today. The book will be of use to policy makers city planners practitioners and academics who are starting to project what modern cities would need to do in terms of energy efficiency mobility planning and design of habitat and infrastructure and adapting to climate change.

**Marketing Green Building Services** Jerry Yudelson, 2012-07-26 Marketing Green Building Services Strategies for Success presents all the information key decision makers need to respond to the fast growing market for green buildings design and construction services and

products Completely updated revised and expanded from the author s previous works this book is the one resource you need to succeed in the green building marketplace With a sound grounding in contemporary marketing theory and practice the book assembles hard to find information to assist executives and partners in design and construction firms in crafting competitive strategies that build on their firm strengths while shoring up their weaknesses Since most design and construction firms specialize in particular market sectors the book systematically examines the important market segments for green buildings It also presents key business case justifications for green buildings that help architects engineers and builders to understand client motivations and respond to them with appropriate marketing tactics and communications strategies The book examines how the green building market is adopting certain new products and design approaches information that will help manufacturers and product sales teams to craft appropriate marketing strategies The book also helps owners and developers understand the green building business case and to find out what other leading edge firms and projects have learned how to market and sell green buildings and green developments in a highly competitive marketplace
