**Biohackers Magazine Issue 9** Biohackers Magazine , The importance of continual self improvement and development cannot be understated especially in the world of biohacking But there is also something that cannot be overstated in this same realm of personal health and growth and that is the vital role that women play Often argued and affirmed as the more intuitive of the 2 sexes women have and continue to push themselves and their community towards their health wellness and wisdom goals In a lot of ways men have it easy Our bodies instruction manual is comparable to a generic IKEA coffee table's guided instructions not a lot to decipher But some could compare women's bodies manuals to NASA's rocket construction directions a lot of steps and A LOT to understand Granted the woman's body is easily the more attractive of the two in my opinion and I want it to be clear that although this statement is bias I mean this as a more aesthetic art like manner The symmetry the intricacy the mysteriousness the gracefulness just the way everything connects Perhaps its because of this clear advantage in the beauty category that it takes a lot to master all the processes within it It once was said that in the beginning God first made man but then afterwards he took a long look at him and then told himself I can do better than that and then made woman Women are at the forefront of biohacking and its clear that the industry would not be where it is today without them Due to women having to figure out all of their complexities but also having the tenacity and courage to do so they have stood side by side with men and helped to share the helpful and needed knowledge of health optimization with the world It is with great pleasure and respect that we dedicate this issue to all of the women in the world striving to promote good health strong lives and clearer minds Although we have had and will continue to have female authors and subject matter in past and future issues every article contained inside this particular issue is either written by a female author or purely feminine in subject matter This is our way to take a moment to highlight and thank all those women out there doing their thing At Biohackers Magazine we believe no we know that every woman's thought and word is just as important as every man's And we are here to provide this magazine as the ontic evidence to that Without further ado enjoy your new womanful issue
