the early years of the People's Republic. He reconstructs editors' cultural activities and work lives as a lens onto the role of intellectuals in cultural change. Examining China's distinct modes of industrial publishing, Culp explains the emergence of the modern Chinese intellectual through commercial and industrial processes rather than solely through political revolution and social movements. An original account of Chinese intellectual and cultural history as well as global book history. **The Power of Print in Modern China** illuminates the production of new forms of knowledge and culture in the twentieth century. **Asian Classics on the Victorian Bookshelf** Alexander Bubb, 2023-03-14. The interest among Victorian readers in classical literature from Asia has been greatly underestimated. The popularity of the *Arabian Nights* and The Rubaiyat of Omar Khayyam is well documented. Yet this was also an era in which freethinkers consulted the Quran in which schoolchildren were given abridgements of the Ramayana to read in which names like Kalidasa and Firdusi were carved on the facades of public libraries and in which women's book clubs discussed Japanese poetry. But for the most part such readers were not consulting the specialist publications of scholarly orientalists. What then were the translations that catalysed these intercultural encounters? Based on a unique methodology marrying translation theory with empirical techniques developed by historians of reading, this book shines light for the first time on the numerous amateur translators or popularizers who were responsible for making these texts accessible and disseminating them to the Victorian general readership. **Asian Classics on the Victorian Bookshelf** explains the process whereby popular translations were written, published, distributed to bookshops and libraries and ultimately consumed by readers. It uses the working papers and correspondence of popularizers to demonstrate their techniques and motivations while the responses of contemporary readers are traced through the pencil marginalia they left behind in dozens of original copies. In spite of their typically limited knowledge of source languages, **Asian Classics** argues that popularizers produced versions more respectful of the complexity, cultural difference and fundamental untranslatability of Asian texts than the professional orientalists whose work they were often adapting. The responses of their readers likewise frequently deviated from interpretive norms and it is proposed that this combination of eccentric translators and unorthodox readers triggered flights of translation whereby historical individuals can be seen to escape the hegemony of orientalist forms of knowledge. **Book History** Ezra Greenspan, Jonathan Rose, 2003-09-01. **Book History** is the annual journal of the Society for the History of Authorship, Reading and Publishing Inc. **SHARP Book History** is devoted to every aspect of the history of the book broadly defined as the history of the creation, dissemination and the reception of script and print. **Book History** publishes research on the social, economic and cultural history of authorship, editing, printing, the book arts, publishing, the book trade, periodicals, newspapers, ephemera, copyright, censorship, literary agents, libraries, literary criticism, canon formation, literacy, literacy education, reading habits and reader response. **The Papers of the Bibliographical Society of America** Bibliographical Society of America, 1996. **Victorian Publishing** Alexis Weedon, 2017-03-02.
