

# Forward Voicemail to Email

CenturyLink®

This enhancement to your CenturyLink Voice Mail service lets you listen to and manage your voice messages on your computer – whenever and wherever you're online. Incoming voicemails are sent to your preferred email address, attached as a .WAV file that can be handled like any other email message: forward it to someone else, reply via voice or email, save the message to your computer, or file it for reference. You can choose to automatically forward all your messages to email, or choose specific messages to forward individually.

## Set up Autoforwarding of ALL Voicemails

- Log in to My Account at <https://team.centurylink.com/team/login.do>. Use the same CenturyLink user name and password you already have. If you haven't set up a My Account profile yet, click the Enroll Now button.
- From your management console, choose a Message Services in the left column, then click Manage Voicemail under SmartConnect from the window on the middle.
- On the Voicemail management screen, click **Settings** in the top right, then the **Messaging** tab, and **Settings** again below that.
- In the **Voicemail Auto-Forwarding** box:
  - Click the top bar to Auto-Forward all voicemail messages as emails.
  - Enter the email address that you want all your voicemails forwarded to.
  - Decide whether you want to leave a copy of the forwarded message in your phone's voicemailbox inbox.
- Make sure to click **APPLY** when you're done.

Remember this page is only for use on a PC. To manage your phone-based voicemail, use the CenturyLink service.

Click **OK** to save your settings. If you plan to transfer all your voicemails completely through your email, the auto-forwarding option will be selected in your phone's settings, and new messages will not trigger the Message Waiting status in message light.

Click **OK** to save your settings. If you plan to transfer all your voicemails completely through your email, the auto-forwarding option will be selected in your phone's settings, and new messages will not trigger the Message Waiting status in message light.
