

The background of the entire slide is a photograph of a dirt path winding through a forest. The path is covered in fallen leaves and leads into the distance. The trees are mostly bare, suggesting an autumn or winter setting. A semi-transparent grey band runs horizontally across the middle of the image, containing the author's name. Above this band, there is a dark rectangular box with a double-line border, containing the title in a stylized font.

Certainty And The Search For Absolute Truth:

Certainty and the Search for Absolute Truth Robert Burkhart, 2011-02-01 Wait Before you fly into that building What is truth Is it knowable Can we be absolutely certain about anything A momentous work of philosophy doesn't have to be massive and unreadable No example of philosophy that you'll encounter will deal with Certainty and Truth more concisely and compellingly than this book yet it does so while maintaining an engaging style that keeps the cerebral content very readable and accessible Like previous philosophies that address Certainty and Truth the work HAD to address the issue of God yet unlike its predecessors manages to do so without any hidden assumptions As a result it holds confirmations of orthodox Christianity that are unprecedented The book adopts a partially autobiographical style as it details how the hyper rational author went from the purest form of agnosticism to fundamentalist Christianity over a span of years Within are essays that address common misconceptions that skeptics and Christians share There is also a miraculous quality to the account that speaks to the heart The fact that the author is a recent stroke victim cognitively impaired and partially paralyzed makes it apparent that he cannot take credit for any cleverness reflected in this book There are things on a par with Einstein's On The Photoelectric Effect or On Brownian Motion Since the author admits to having the barest of math abilities it's fortunate that the issues in this work do not require the same mathematical rigor to express as Einstein's remarkable understandings Nevertheless the assertion of novelty and momentousness for this work is appropriate There are unusual and intellectually satisfying answers to questions that people have grappled with for centuries Questions like What is the nature of reality and to what extent is anything knowable Where did I come from and what's to become of me What is the name of God and is there a chosen people Can Jesus be the Son of God and also God Himself How can the torments of Hell come from a loving God Book sale proceeds go to AsiaHarvest.org

Finding and Confirming Truth John Pletz, 2010-05-10 Is truth a word we use only to affirm a statement or is it also something more In *Finding and Confirming Truth* John S Pletz explains that truth is more than mere affirmation It also is the conclusion reached when we have effectively confirmed that an assertion accurately depicts the facts that it describes Following a delineation of the major types of inferences used in confirming the truth of statements and the justifications for each of them Pletz discusses the process used in identifying and verifying factual truth That process includes the critical step of assessing the degree of certainty we have in a confirmed assertion which the author contends must be ascertained before we should conclude that any statement is true Finally Pletz employs this confirmation framework and process in seeking the truth of the concept of truth itself [Christian Agnostic](#)

Dustin Lawson, 2012-01-20 Could it be true that Jesus requires his followers to admit room for doubt in him According to this book yes The Bible realizes that faith and doubt are great enemies But the Bible also understands that faith loves doubt because faith thrives on its war with doubt and because doubt sustains faith's need to exist For this reason the Bible where maybe no other religious book does sees doubt as an ally because the Bible knows that if doubt could be eliminated and

certainty attained then faith the resource that fuels the Bible s followers could not exist for there can be no faith where there is not doubt The Dialogical Mind Ivana Marková,2016-09 Markov offers a dialogical perspective to problems in daily life and professional practices involving communication care and therapy **Mastering Self** Donald G. What a powerful recount you made of what I would consider a titanic trek through the labyrinths of the spirit until you found an anchor a firm rock a point of Certainty where the search finally came to an end and the longing ceased Congratulations There are not many of us willing to attempt taking the inner path in such a consistent and meticulous manner with such honesty and depth Many are willing to start the quest though only a few get to the end and even fewer are able to find answers to their questions This happened because they got tired along the way and did throw the towel yielding when confronted with the many hard tasks to undertake along the journey Frequently they became disillusioned and concluded that the sought end of the quest did not justify the effort to be exerted I never got the impression that through the quest you ever contemplated giving up the search You always followed your intuitions signals which were clear and at the same time difficult to read At no time did I perceive that you were about to abandon the struggle or the effort that may bring you to the discovery of that unmovable Rock of Gibraltar that inner place which would open the door to the other dimension the transcendent world That world that manifests itself as a continuous state of mind brightening your path with an ever expanding light that is bringing you closer to the Source It is that focal point that illuminates all existence and provides meaning and orientation to everything It is the primeval essence that permeates all with His own substance because He is the foundation of all I found in your writings a new freshness a new vigor of a way to feel and experience God in a direct manner through everything He has given us to communicate with Him our intuitive and reflexive capacity our introspection capacity our analytical capacity the capacity to feel the Divine presence in a direct manner directly manifested in that site where our own divine presence resides Only a few very few are able to attain this perception throughout a lifetime It is a present a gift from the Universe It was given by God to whom you can be thankful for and continue enjoying every single day Of this attainment you will never get tired or be able to exhaust the flow that connects you with the Transcendent One with the All with the Omnipresent Your way for finding God has been traversed by some It is the path headed toward illumination Even though it is different to those followed by the majority it will bring you to the same destination provided by other valid means To attain Gods inner experience Nevertheless what differentiates your approach from others is that along the way you got rid of all attachments received by you as an inculcated inheritance You disowned any concept or image that was a part of previous indoctrination in order to start afresh an inner dialog searching through experiences rather than concepts direct experience instead of dogma introspection instead of analysis You have arrived to a degree of firmness and certainty that without a doubt there is nothing that could take away your direct and personal experience Blessed are those that without seeing understand that without hearing listen that by searching find those that by knocking get the door of the heart and the understanding open
