*Research Administrator Exam* Michael Yu, Examreview, 2021-09-28 Earning the RACC Certified Research Administrator CRA means that an individual has demonstrated a level of knowledge necessary for a person to be a professional research or sponsored programs administrator. This book includes 70 practice review questions and answers. We create these self-practice test questions module referencing the concepts and principles currently valid in the exam. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning to validate successful transference of knowledge and to identify areas of weakness that require remediation. **CRA**

**ExamFOCUS Study Notes 2018/19 Edition** Examreview, 2018-01-29 According to the Research Administrators Certification Council the designation of Certified Research Administrator CRA means that an individual has met the requirements of the Research Administrators Certification Council's eligibility requirements and has demonstrated a level of knowledge necessary for a person to be a professional research or sponsored programs administrator. Exam candidates would have to pass the written examination developed by the Council and administered in the form of computer testing by the Professional Testing Corporation. The multiple choice based examination would test a broad base of fundamental information required to meet the demands and responsibilities of the profession. The examination is based on the Council's comprehensive BOK which includes topics listed in <http://www.cra-cert.org/CRAbodyofknowledge.html>. Simply put a research administrator needs to act as a contract administrator a negotiator a project manager a record keeper a bookkeeper. The CRA exam attempts to assess the knowledge of academic researchers via MC questions this can become a problem as practical researchers are not always skillful in taking MC tests. ALSO you must understand that the CRA exam is not about research skills. It is about the overall administration and management of the entire research effort. Therefore a lot of business management kinds of concept are tested. Having rich academic research background is not enough you have to be a good administrator and manager as well. Keep in mind managing a research project is no different from managing a traditional business project. All business concepts principles and practices would apply. The BOK of the exam has a huge scope. Expecting full and complete coverage of all the knowledge items from a single source is unrealistic. You should use this book together with other study resources. *Certified Research Administrator Exam Success Guide 2025/2026* Lara Fitzroy, 2025-08-16.
