[Mobilities in Primary Literacy Education](#) Cathy Burnett, Gill Adams, Julia Gillen, Terrie Lynn Thompson, Anna Cermakova, David Ben Shannon, Parinita Shetty, 2024-11-15 This book delves into the intriguing question of why certain types of literacy research gain more traction than others in educational settings. It draws upon findings from Research Mobilities in Primary Literacy Education an innovative and interdisciplinary study conducted in England and supported by the Economic and Social Research Council ES/W000571/1. The study investigated the types of literacy research that reach teachers the ways in which human and non human actors mobilise research and the transformation of research as it circulates. The book argues that for teachers to foster genuinely inclusive literacy classrooms they need to be equipped to draw on understandings associated with a variety of theoretical perspectives and research traditions. It further explores the dynamics of research dissemination and the factors that influence the uptake and application of research findings in educational contexts. This work is an original and groundbreaking contribution to debates about the scope and focus of literacy education the role of evidence based
