read surfaced in 1979 when she met and began teaching a boy named George. When George's parents asked her to explain why he couldn't read and how she could help, Beers, a secondary certified English teacher with no background in reading, realized she had little to offer. That moment sent her on a twenty three year search for answers to the question: How do we help middle and high schoolers who can't read? Now she shares what she has learned and shows teachers how to help struggling readers with comprehension, vocabulary, fluency, word recognition and motivation. Filled with student transcripts, detailed strategies, reproducible material and extensive booklists, Beers' guide to teaching reading both instructs and inspires.

Deaf Learners Donald F. Moores, David S. Martin, 2006. This in-depth collection by 17 renowned international scholars details a developmental framework to maximize academic success for deaf students from kindergarten through grade 12. Part One, The Context, commences with an overview of the state of general education and that of deaf learners, followed by a state of the art philosophical position on the selection of curriculum. Part Two, The Content, considers critical subjects for deaf learners and how to deliver them, including mathematics, print literacy, science, social studies and physical education. This section also addresses the role of itinerant services as well as how to teach Deaf culture. Part Three, Instructional Considerations Across the Curriculum, provides suggestions and guidelines for assessing and planning programs for deaf students using meaningful contexts, optimizing the academic performance of deaf students with emphasis on access and opportunities, implementing a cognitive strategy that encourages teaching for and about thinking as an overriding principle, establishing instructional and practical communication in the classroom especially in relation to ASL and English based signing, and solving old problems with new strategies including Web based technologies, resources and applications. The lessons of these assembled scholars coalesce in the Part Four, Summary, as a general recommendation for ongoing adaptability, a fitting capstone to this extraordinary volume of work.

In Re L.H., 1982 *Teaching, Leading, and Learning in Pre K-8 Settings* Rita A. Jensen, Therese J. Kiley, 2005. Teaching, Leading, and Learning encourages pre-service and in-service teachers to question the why, what, when, and how of instructional strategies. The text combines theory and current research with practice in order to help teachers understand the performances, dispositions, and knowledge base required for success. Teachers are encouraged to consider the big picture variables, professional development, teachers as leaders, the intangibles of teaching, parents and families, and working creatively within the system.
