**American Journalism Review**, 2011     *Storming the Ivory Tower* Richard Corcoran, 2024-11-19 A firsthand account of how Richard Corcoran former education commissioner of Florida successfully took on powerful progressive interest groups broke their monopoly and paved the way for higher education reform across America Covid alerted the nation to the reality that K 12 schools private and public alike were infested with ideologues bent on indoctrinating children Then three years after the beginning of the pandemic the shocking response to Hamas's genocidal assault on Israel made Americans aware that the same tumor had wholly sickened our country's colleges and universities Now conservatives and increasingly moderates and old school liberals want to know exactly how the radical left captured higher education Florida has been the vanguard in the war to restore sanity to higher education And Richard Corcoran has been one of its commanding generals and racking up wins When Corcoran was Florida's education commissioner he was the point person for reopening schools and banning mask mandates He triumphed Then he was given a herculean task remaking a college overrun by radicalism and cancel culture In 2023 he moved into the president's office in Sarasota took on a campus mob and challenged a media firestorm Just a year later Corcoran achieved the seemingly impossible He turned around New College of Florida Now free speech is protected Violence and anti-Semitism are abolished DEI bureaucracy is eliminated And already enrollment records are being broken *Storming the Ivory Tower* is the story of how Corcoran is winning the fight for freedom in hostile territory and how others can join the battle

**The Fruits of Listening** Colleen C. B. Weaver, 2024-10-31 Theological seminaries and Bible institutes find themselves at the crossroads of preserving biblical faithfulness and of maintaining contextual relevance What does faithful contextual relevance look like How can theological institutions steer a course that will engage and serve the church through the men and women they equip for ministry and service In pursuit of answers to those questions a qualitative research project was designed and conducted in the Protestant evangelical community in Madrid Spain It presented a unique situation where seminary faculty and students and church attenders could be invited to share their perspectives experiences and hopes for transformative theological education Congregants offered a vision of theological education that equips leaders to relationally empower the church to give witness in the society Intentional listening was prioritized on three seminary campuses where faculty and students shared their stories of theological formation and described the unique contextual challenges they face as Protestant believers in Spain They voiced narratives of how they must find ways to persevere amid pervasive scarcity and in a rapidly changing society Seminaries and churches around the world may recognize details of their own experiences in these stories and importantly receive resources for relevant contextualization in this work

*Determined* Robert M. Sapolsky, 2024-10-15 The instant New York Times bestseller Excellent Outstanding for its breadth of research the liveliness of the writing and the depth of humanity it conveys Wall Street Journal One of our great behavioral scientists the bestselling author of *Behave* plumbs the depths of the science and philosophy of decision making to mount a devastating case against free will an argument with profound consequences Robert Sapolsky s *Behave* his now classic account of why humans do good and why they do bad pointed toward an unsettling conclusion We may not grasp the precise marriage of nature and nurture that creates the physics and chemistry at the base of human behavior but that doesn t mean it doesn t exist Now in *Determined* Sapolsky takes his argument all the way mounting a brilliant and in his inimitable way delightful full frontal assault on the pleasant fantasy that there is some separate self telling our biology what to do *Determined* offers a marvelous synthesis of what we know about how consciousness works the tight weave between reason and emotion and between stimulus and response in the moment and over a life One by one Sapolsky tackles all the major arguments for free will and takes them out cutting a path through the thickets of chaos and complexity science and quantum physics as well as touching ground on some of the wilder shores of philosophy He shows us that the history of medicine is in no small part the history of learning that fewer and fewer things are somebody s fault for example for centuries we thought seizures were a sign of demonic possession Yet as he acknowledges it s very hard and at times impossible to uncouple from our zeal to judge others and to judge ourselves Sapolsky applies the

new understanding of life beyond free will to some of our most essential questions around punishment morality and living well together By the end Sapolsky argues that while living our daily lives recognizing that we have no free will is going to be monumentally difficult doing so is not going to result in anarchy pointlessness and existential malaise Instead it will make for a much more humane world *West Virginia Law Review* ,2012 **Brigham Young University Law Review** ,2007
