## **TikTok Self Help Trend Award Winning:**

**Producing Children** Peter C. Kunze, Victoria Ford Smith, 2025-04-15 *Producing Children* imagines the possibility indeed the inevitability of a creative relation between children as producers and consumers by revising the long established hierarchical relation between adults and children. The chapters in this collection reveal that studying child produced culture complicates our received understandings of children's culture as culture by adults for children about children. They also underscore children's literature as a cultural phenomenon that moves across and beyond genres, forms and media. As a whole this collection reveals that attention to child produced culture invites dialogue and collaboration across fields and disciplines invested in the critical understanding of children as embodied beings and childhood as both a stage of development and discursive construct with social, political, economic and cultural dimensions and influence. With the ongoing vibrancy of childhood studies as a multidisciplinary area of inquiry, studies of child produced culture provide scholars with an exciting opportunity to complicate, enrich and expand theorization of childhood creativity, children's culture and even children themselves.

**All in Her Head** Elizabeth Comen, 2024-02-13 *Finalist for the 2025 PEN E.O. Wilson Literary Science Writing Award, USA Today Bestseller.* All in Her Head accomplishes a remarkable feat of storytelling. By combining essential medical histories about women's bodies with all the narrative propulsion of a medical thriller, Comen has written a must-read, compelling and important book. Siddhartha Mukherjee, Pulitzer Prize winning author of The Emperor of All Maladies and The Song of the Cell, Wow! This book will upend everything you thought you knew about your body while empowering you to make better decisions moving forward. Through storytelling, extensive research and easy recommendations, Dr. Elizabeth Comen has given us all a priceless road map to reclaim our agency. Eve Rodsky, author of Fair Play, A surprising groundbreaking and fiercely entertaining medical history that is both a collective narrative of women's bodies and a call to action for a new conversation around women's health. For as long as medicine has been a practice, women's bodies have been treated like objects to be practiced on, examined and ignored, idealized and sexualized, shamed, subjugated, mutilated and dismissed. The history of women's healthcare is a story in which

women themselves have too often been voiceless a narrative instead written from the perspective of men who styled themselves as authorities on the female of the species yet uninformed by women s own voices thoughts fears pain and experiences The result is a cultural and societal legacy that continues to shape the mis treatment and care of women While the modern age has seen significant advancements in the medical field the notion that female bodies are flawed inversions of the male ideal lingers on as do the pervasive societal stigmas and lingering ignorance that shape women s health and relationships with their own bodies Memorial Sloan Kettering oncologist and medical historian Dr Elizabeth Comen draws back the curtain on the collective medical history of women to reintroduce us to our whole bodies how they work the actual doctors and patients whose perspectives and experiences laid the foundation for today s medical thought and the many oversights that still remain unaddressed With a physician s knowledge and empathy Dr Comen follows the road map of the eleven organ systems to share unique and untold stories drawing upon medical texts and journals interviews with expert physicians as well as her own experience treating thousands of women Empowering women to better understand ourselves and advocate for care that prioritizes healthy and joyful lives for us and generations to come All in Her Head is written with humor wisdom and deep scientific and cultural insight Eye opening sometimes enraging yet always captivating this shared memoir of women s medical history is an essential contribution to a holistic understanding and much needed reclaiming of women s history and bodies
