Carrier ,1964 **Improving the Health, Safety, and Well-Being of Young Adults** Board on Children, Youth, and Families,Institute of Medicine,National Research Council,2013-10-11 Young adults are at a significant and pivotal time of life They may seek higher education launch their work lives develop personal relationships and healthy habits and pursue other

endeavors that help set them on healthy and productive pathways. However, the transition to adulthood also can be a time of increased vulnerability and risk. Young adults may be unemployed and homeless, lack access to health care, suffer from mental health issues or other chronic health conditions, or engage in binge drinking, illicit drug use, or driving under the influence. Young adults are moving out of the services and systems that supported them as children and adolescents, but adult services and systems, for example, the adult health care system, the labor market, and the justice system, may not be well suited to supporting their needs. *Improving the Health Safety and Well Being of Young Adults* is the summary of a workshop hosted by the Board on Children, Youth, and Families of the Institute of Medicine (IOM) and the National Research Council (NRC) in May 2013. More than 250 researchers, practitioners, policy makers, and young adults presented and discussed research on the development, health, safety, and well-being of young adults. This report focuses on the developmental characteristics and attributes of this age group and its placement in the life course, how well young adults function across relevant sectors, including, for example, health and mental health, education, labor, justice, military, and foster care, and how the various sectors that intersect with young adults influence their health and well-being. *Improving the Health Safety and Well Being of Young Adults* provides an overview of existing research and identifies research gaps and issues that deserve more intensive study. It also is meant to start a conversation aimed at a larger IOM/NRC effort to guide research practices and policies affecting young adults.

Buttress's World Guide to Abbreviations of Organizations L. Pitman, 1996-12-31. The previous edition of this directory extended its coverage of the Far East, Australasia, and Latin America areas previously underrepresented. For this new edition, emphasis has been given to increasing the number of entries for organizations from Britain, the United States, and Australia, and particular attention has been paid to new political organizations in Central and Eastern Europe and the former Soviet Union. The number of entries included has gone up to over 68 000, of which over 9 000 are new or amended. Cross references from defunct organizations in the previous edition have been deleted, and references indicated by ex and now added for organizations which have changed their name since the previous edition. As before, the range of organizations included is broad, and only purely local organizations have been excluded. This directory therefore lists official and unofficial organizations, national and international, on all subjects, political, economic, and social. Acronyms of parent bodies of subsidiary organizations are given where appropriate, and equivalencies are used to link acronyms in different languages for the same organization.
