What the Health Kip Andersen, Keegan Kuhn, Eunice Wong, 2018-12-18. The definitive stand alone companion book to the acclaimed documentary now with 50 plant based recipes and full color photos to help you start changing your health for the better. There's something terribly broken in our industrial food, medical and pharmaceutical systems. What's going wrong? Can we really avoid the leading causes of death just by changing our diet? Kip Andersen and Keegan Kuhn, creators of the revolutionary **What the Health** and the award winning **Cowspiracy** documentaries, take readers on a science based tour of the hazards posed by consuming animal products and what happens when we stop. **What the Health** will guide you on an adventure through this maze of misinformation with the same fresh, engaging approach that made the documentary so popular. Journey with Andersen and Kuhn as they crisscross the country talking to doctors, dietitians, public health advocates, whistle blowers and world class athletes to uncover the truth behind the food we eat. With the help of writer Eunice Wong, they empower eaters with knowledge about the lethal entwining of the food, medical and pharmaceutical industries and about the corporate web that confuses the public and keeps Americans chronically and profitably ill. Plus discover 50 recipes to help you reclaim your life and health including Creamy Mac PB J Smoothie, Winter Lentil and Pomegranate Salad, Mom's Ultimate Vegan Chili, Black Bean Fudgy Brownies, Baked Apple Crumble with Coconut Cream. If the film was a peephole, then the book knocks down the whole door, featuring expanded interviews, extensive research and new personal narratives. There's a health revolution brewing. **What the Health** is your invitation to join. **What the Health** Eunice Wong, 2017-02-22. **What The Health** is the official stand alone companion book to the groundbreaking documentary of the same name, directed by Kip Andersen and Keegan Kuhn, directors of the award winning documentary **Cowspiracy**. The Sustainability Secret. If the film is a peephole, then this book knocks down the entire door, diving into expanded interviews, extensive research and personal narratives. Scientific literature shows that eating saturated fat, mainly found in animal products like meat, dairy and eggs, is more strongly associated with death than smoking cigarettes. Think about that. If at a neighborhood cookout, the dad next

door offered you and your child a cigarette and a light how would you react? And yet we accept with thanks the glistening beef burgers from that same dad. What's the difference between taking the cigarette and the burger? The smell and the taste? The social assumptions? The habits? The lack of knowledge? Journey with Kip and Keegan as they crisscross the country talking to physicians, dietitians, cardiologists, pediatricians, bariatric surgeons, lawyers, economists, activists, and food safety advocates in a passionate search for the truth about the food we eat and the stunning implications for our health and the country's cascade of killer diseases. Along the way they meet Ren Miller whose home is routinely drenched by manure cannons from the factory farm next door slaughterhouse vet Dr. Lester Friedlander who blew the whistle on Mad Cow Disease political prisoner Jake Conroy and world class athletes like former NFL defensive lineman David Carter and ultra endurance athlete Rich Roll who completed 5 Ironman triathlons in under a week and many other fascinating characters each with their own piece of the puzzle. There is a health revolution brewing. Many people know there's something terribly broken about the industrial food, medical and pharmaceutical systems but they don't know what it is. It's no wonder because there is an intricate political and corporate apparatus in place to keep them from finding out. People think heart disease, cancer and diabetes are inherited, not realizing that what they've actually inherited are the eating habits of their parents and grandparents. Lifestyle choices like diet and lack of exercise are responsible for about 70 percent of deaths in this country. Diseases that kill millions can be prevented or even reversed. What The Health takes you on an adventure uncovering the lethal entwining of the food, medical and pharmaceutical industries with our own government and the corporate legislative web designed to confuse the public and keep Americans chronically and profitably ill.
