choices for your business and reject solutions that fix problems you don't have [Storm Applied](#) Matthew Jankowski, Peter Pathirana, Sean Allen, 2015-03-30 Summary *Storm Applied* is a practical guide to using Apache Storm for the real world tasks associated with processing and analyzing real time data streams. This immediately useful book starts by building a solid foundation of Storm essentials so that you learn how to think about designing Storm solutions the right way from day one. But it quickly dives into real world case studies that will bring the novice up to speed with productionizing Storm. Purchase of the print book includes a free eBook in PDF, Kindle and ePUB formats from Manning Publications. Summary *Storm Applied* is a practical guide to using Apache Storm for the real world tasks associated with processing and analyzing real time data streams. This immediately useful book starts by building a solid foundation of Storm essentials so that you learn how to think about designing Storm solutions the right way from day one. But it quickly dives into real world case studies that will bring the novice up to speed with productionizing Storm. About the Technology It's hard to make sense out of data when it's coming at you fast. Like Hadoop, Storm processes large amounts of data but it does it reliably and in real time, guaranteeing that every message will be processed. Storm allows you to scale with your data as it grows, making it an excellent platform to solve your big data problems. About the Book *Storm Applied* is an example driven guide to processing and analyzing real time data streams. This immediately useful book starts by teaching you how to design Storm solutions the right way. Then it quickly dives into real world case studies that show you how to scale a high throughput stream processor, ensure smooth operation within a production cluster and more. Along the way you'll learn to use Trident for stateful stream processing, along with other tools from the Storm ecosystem. This book moves through the basics quickly. While prior experience with Storm is not assumed, some experience with big data and real time systems is helpful. What's Inside Mapping real problems to Storm components, Performance tuning and scaling, Practical troubleshooting and debugging, Exactly once processing with Trident. About the Authors Sean Allen, Matthew Jankowski and Peter Pathirana lead the development team for a high volume search intensive commercial web application at TheLadders.
