

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "time".
You can check the box, but measure the results.
You only measure progress when you move to goals,
prioritize, communicate priorities, and continue to
prioritize, communicate priorities, and continue to

do. For the most part, I just move on and do what
needs to be done. I don't focus on what to do first
or the priority of doing something. You can do
it all and still move on to the next

right priorities.

1. **Set your goals.** You can't move forward
without a clear idea of where you want to go.
Goals are the foundation for success.
2. **Communicate priorities.** You can't move forward
without a clear idea of what's most important.
Priorities are the foundation for success.
3. **Focus on output.** You can't move forward
without a clear idea of what's most effective.
Output is the foundation for success.

STEP 3

FOCUS ON RESULTS.

As many entrepreneurs work to grow their business, the idea of success is often
overlooked. Each business is in a different industry, so what makes one
entrepreneur successful may not be the same for another. However, there are a few
things that may contribute to success, such as growth, and revenue.

New business

New business owners have to focus on growing their business. The focus and time they spend on their business is to build a strong foundation and company. They must focus on their business needs, such as, the new market, their product, and their customers. They must also focus on their business needs, such as, their product, and their customers. They must also focus on their business needs, such as, their product, and their customers.

The Pareto Principle, also known as the 80/20 rule, is based on the concept of giving 80% of the results with 20% of the effort. This principle can be applied to business management, where 80% of the time and effort is spent on 20% of the tasks, while 80% of the results come from 20% of the tasks.

For example, if you work 80 hours a week, then only 20 hours are spent on the growth of your business.
