Case Study Guide:

How to Do Your Case Study Gary Thomas, 2011-01-19 This accessible text introduces students and researchers to the basics of case study research using a wide range of real life examples. It deals with the core issues and methods that anyone new to case study will need to understand. What is a case study? When and why should case study methods be used? How are case studies designed? What methods can be used? How do we analyze our data and write up our case?

Doing Case Study Research Bob Algozzine, Dawson Hancock, 2017 Reflecting recent knowledge and developments in the field, this very practical, easy to use guide emphasizes learning how to do case study research from the first step of deciding whether a case study is the way to go to the last step of verifying and confirming findings before disseminating them. The authors show students how to determine an appropriate research design, conduct informative interviews, record observations, document analyses, delineate ways to confirm case study findings, describe methods for deriving meaning from data and communicate their findings. Featuring many new examples, the Third Edition offers step by step guidance to help beginning researchers through the stages of planning and implementing a thesis, dissertation or independent project. This succinct how to guide is an excellent place for anyone to begin doing case study research.

Book Features: Straightforward introduction to the science of doing case study research. A step by step approach that speaks directly to the novice investigator. Many concrete examples to illustrate key concepts. Questions, illustrations and activities to reinforce what has been learned.

Doing Case Study Research Dawson R. Hancock, Bob Algozzine, Jae Hoon Lim, 2021-10 Now in a Fourth Edition, this how to guide is an excellent starting point for anyone looking to begin case study research. The authors, all professors teaching graduate students in education and other professions, provide the structure, detail and guidance needed for beginning researchers to complete a systematic case study. Improvements for this edition include more practical and detailed guidance for conducting a literature review, a more efficient and easy to understand reorganization of the case study examples and updated citations throughout the text. As with previous editions, this succinct handbook emphasizes learning how to do case study research from the first step of deciding whether a case study is the way to go to the last step of verifying and confirming findings before disseminating them. It shows students how to determine an appropriate research design, conduct informative interviews, record observations, document analyses, delineate ways to confirm case study findings, describe methods for deriving meaning from data and communicate findings.
