CASTI Handbook of Stainless Steels & Nickel Alloys Stephen Lamb, John E. Bringas, 1999 Applied Metallurgy and Corrosion Control Amiya Kumar Lahiri, 2017-08-23 This book serves as a comprehensive resource on metals and materials selection for the petrochemical industrial sector. The petrochemical industry involves large scale investments and to maintain profitability the plants are to be operated with minimum downtime and failure of equipment which can also cause safety hazards. To achieve this objective proper selection of materials, corrosion control and good engineering practices must be followed in both the design and the operation of plants. This book is written with the objective of serving as a one stop shop for these engineering professionals. The book first covers different metallic materials and their properties, metal forming processes, welding and corrosion and corrosion control measures. This is followed by considerations in material selection and corrosion control in three major industrial sectors: oil/gas production, oil refinery and fertilizers.
