top consulting firm Case Closed is honestly the best interview prep book and I've read all of them. The case interviews in Case Closed were by far the best and most similar to the cases I got in the actual interviews Bain San Francisco internship offer UC Berkeley Haas undergraduate. In my panic I read all of the case interview frameworks from different case prep books. And that ended up confusing me more because there were so many frameworks but no easy way to remember when to use what. Case Closed walks you through the interview process in such a great way that I started loving case interviews and landed the job BCG Boston full time offer University of Virginia undergraduate.

The Big Con Mariana Mazzucato, Rosie Collington, 2026-01-20 A vital and timely investigation into the opaque and powerful consulting industry and what to do about it. There is an entrenched relationship between the consulting industry and the way business and government are managed today that must change. Mariana Mazzucato and Rosie Collington show that our economies' reliance on companies such as McKinsey Company Boston Consulting Group Bain Company PwC Deloitte KPMG and EY obscures innovation, obfuscates corporate and political accountability, and impedes our collective mission of halting climate breakdown. The Big Con describes the confidence trick the consulting industry performs in contracts with hollowed out and risk averse governments and shareholder value maximizing firms. It grew from the 1980s and 1990s in the wake of reforms by the neoliberal right and Third Way progressives and it thrives on the ills of modern capitalism from financialization and privatization to the climate crisis. It is possible because of the unique power that big consultancies wield through extensive contracts and networks as advisors, legitimizers, and outsourcers and the illusion that they are objective sources of expertise and capacity. In the end, the Big Con weakens our businesses, infantilizes our governments, and warps our economies. In The Big Con Mazzucato and Collington throw back the curtain on the consulting industry. They dive deep into important case studies of consultants taking the reins with disastrous results such as the debacle of the roll out of HealthCare.gov and the tragic failures of governments to respond adequately to the COVID 19 pandemic. The result is an important and exhilarating intellectual journey into the modern economy's beating heart. With peerless scholarship and a wealth of original research Mazzucato and Collington argue brilliantly for building a new system in which public and private sectors work innovatively for the common good.

Mobilities of the Highly Skilled towards Switzerland Laure Sandoz, 2019-08-21 This open access book analyses the strategies of migration intermediaries from the public and private sectors in Switzerland to select, attract and retain highly skilled migrants who represent value to them. It reveals how state and economic actors define wanted immigrants and provide them with privileged access to the Swiss territory and labour market. The analysis draws on an ethnographic study conducted in the French speaking Lake Geneva area and the German speaking northwestern region of Switzerland between 2014 and 2018. It shows how institutional actors influence which resources are available to different groups of newcomers by defining and dividing migrants according to constructed social categories that correlate with specific status and privileges. This research thus shifts the focus from an approach that takes the category of highly skilled migrant for granted to one that regards context as crucial for structuring migrants' characteristics, trajectories and experiences. Beyond consideration of professional qualifications, the ways decision makers perceive candidates and shape their resource environments are crucial for constructing them as skilled or unskilled, wanted or unwanted, welcome or unwelcome. **Data Driven** Jeremy David Curuksu, 2018-06-06 This book is a scientific introduction to management consulting that covers elementary and more advanced concepts such as strategy and client relationship.
