**Child Labor in America** William G. Whittaker, 2004 The history of child labour in America is long and in some cases unsavoury It dates back to the founding of the United States Traditionally most children except for the privileged few had always worked either for their parents or for an outside employer Through the years child labour practices have changed and so have the benefits and risks associated with employment of children In some respects altered workplace technology has served to make work easier and less hazardous At the same time some processes and equipment

have rendered the workplace more dangerous especially for the very young Child labour first became a federal legislative issue at least as far back as 1906 with the introduction of the Beveridge proposal for regulation of the types of work in which children might be engaged Although the 1906 legislation was not adopted it led to extended study of the conditions under which children were employed or allowed to work and to a series of legislative proposals some approved others defeated or overturned by the courts culminating in the Fair Labor Standards Act FLSA of 1938 The latter statute amended periodically remains the primary federal law dealing with the employment of children Although providing a framework for regulation of child labour and in some cases forbidding it entirely the FLSA is not comprehensive nor does it deal with all employment of children in precisely the same way Generally speaking work by young persons under 18 years of age in mines and factories is not allowed What other types of work may be suitable or especially hazardous for persons under 18 years of age has been left to the discretion of the Secretary of Labour Some types of work for example some newspaper sales and delivery theatrical and related employment fall beyond the scope of FLSA child labour requirements Finally a distinction has been made between employment in non agricultural fields and in agriculture and in the latter case between work for a parent or guardian in an agricultural setting and commercial employment This book sketches the early history of child labour regulation and reviews certain recent federal initiatives in that area and discusses child labour legislation Child Labor in the United States ,1924 Child Labor Today Wendy Herumin,2008 Presents a history of child labor around the world describing the jobs children were and are forced to do the ways child labor can be prevented and the laws being created in underdeveloped countries to prevent such unfair practices **child labor** ,1998 *The Meaning of Child Labor* Raymond Garfield Fuller,1922 **Uniform Child Labor Laws** National Child Labor Committee (U.S.),1911 *Child Labor in America* Juliet H.
