Mooij, 1993-07-15 This book is a study of the role of the imagination It focuses on the imaginative use of language in literature poetry and narrative prose but it also touches on some more comprehensive issues for the questions it discusses are questions regarding the relationship between mind reality and unreality The first two chapters survey the thinking about the imagination in the history of philosophy The main trends and the main problems are discussed particularly in respect of the positive or negative evaluation of imagination The subsequent chapters investigate the role of the imagination from a closer point of view How is it that imagination appears in literary art Central topics of discussion are the nature of narrativity of fictional discourse and fictional objects of realistic fiction of symbolism and metaphor Moreover the similarities both real and imagined between literature and the other arts are explored In all chapters attention is paid to the problem of the value of art and literary imagination The last chapter addresses this issue head on In

J. Kelly, 1966      *Transforming Vision* M. Jamie Ferreira, 1991 The metaphor of a leap of faith is probably the element most widely recognized as a distinctive characteristic of a Kierkegaardian account of the transition to religious faith Both in popular and scholarly circles this leap has usually been understood in terms of an act of will power Challenging such a volitionalist view as well as some current alternatives to it which see instead only an ineffable miracle of grace Ferreira argues that Kierkegaard's striking appreciation of a variety of roles of imagination supports a reconceptualization of the leap or decision in terms of a reorienting shift in perspective an imaginative revisioning

Exploring the relation between passion and paradox in several of Kierkegaard's accounts of selfhood and developing an account of transitional choice in which imagination is a constitutive element Ferreira elaborates an understanding of the faith transition in terms of such imaginative activities as suspension synthesis and engagement The analysis of imaginative activity in these ethical and religious transitions has moreover implications which go beyond Kierkegaard scholarship for it bears importantly not only on other conversion accounts but also on the question of transitions to alternative or incommensurable conceptual frameworks in general
