## **Collaborative Leadership In Action Partnering For Success In Schools:**

Collaborative Leadership in Action Shelley B. Wepner, Dee Hopkins, 2010 Collaborative Leadership in Action is about creating school university community partnerships and the leaders who build and sustain them. It defines and describes different types of collaborative partnerships and discusses how to develop, maintain, and evaluate relationships that enrich the PreK-12 learning environment. Speaking from the leadership perspectives of both PreK-12 and higher education, real-life examples illustrate theories and practices of successful leaders partnering across organizations. The final chapter provides a set of considerations and guidelines for effective collaborative leadership. Contributors: David M. Byrd, Jeffrey Glanz, David Hoppey, D. John McIntyre, Ted Price, Lee Teitel, Jerry Willis, Diane Yendol-Hoppey. The need for partnerships between K-12 and higher education is greater than ever before. This book shows how these partnerships can be designed to benefit all students. Gov. Bob Wise, president, Alliance for Excellent Education. I find much wisdom based on lots of experience in this book. Educators are lucky to have this resource available. From the Foreword by David C. Berliner, Regents Professor Emeritus, Arizona State University. Wepner, Hopkins, and their colleagues show us how to create a seamless K-12 system that uses the power of collaboration to improve teaching and student achievement. Effective teaching is a team sport. Our schools need good teachers and leaders, but they don't become great places to learn until those educators join forces to develop a learning culture that is more powerful than even the best of them can create on their own. This book shows the way. Tom Carroll, President, National Commission on Teaching and America's Future.

**Professional Development Schools** JoAnne Ferrara, 2014-03-04 This book is intended as a guide for practitioners interested in forming alliances within their community to support teacher and student success. Under the umbrella of a professional development school (PDS), school principals willing to engage in this type of partnership have access to a framework for school renewal. Within this school-university framework lie four critical factors that transform the ways in which teachers teach and schools function. The professional development school model takes a holistic approach to revitalizing schools by sharing knowledge, resources, practices, and the collaborative efforts of P-12 educators and the higher education community. Through the collective wisdom of P-12 and university educators, PDSs provide a new way to think about teaching and a rich environment for learning.
