I was missing where many of those books left me still spiraling out of control trying to use positive affirmations but still failing this book explained in detail the steps I need to take and helped me to really understand how positive thinking works One chapter titled The Power of Negative Thinking really brought it all into focus and showed me why previously I was unable to use positive thinking as I was already bogged down with so many negative thoughts This book also helps you in becoming aware of your self to recognize how you might react to situations then recognize the voice that guides you in your reaction and finally using positive affirmations to release the negative By the time you are finished reading this book you will find yourself much more informed and equipped to do battle with negativity then you ever realized was possible The reading is easy and informative with man illustrations and examples so that you can get a great grasp of the subject matter regardless of your level of comprehension I read this book to my 9 year old just to see if he would get it and he actually understood the concepts just as well as I did once I finished reading it to him and immediately started putting the concepts into practice This is the best self help positive thinking book I have ever read which is why I took the time to write this description as a reader who has been looking for something like this for a long time I think you will agree that this book will definitely change your attitude and change your mind and will set you on a road to success through Positive Thinking Give it a read and let me know what you think in the comments below I just want to say if this doesn't help you to see the potential within your own mind nothing will Good reading
