## **Create From Images:**

*Digital Image Processing and Analysis* Scott E Umbaugh, 2017-11-30 Digital image processing and analysis is a field that continues to experience rapid growth with applications in many facets of our lives. Areas such as medicine, agriculture, manufacturing, transportation, communication systems, and space exploration are just a few of the application areas. This book takes an engineering approach to image processing and analysis, including more examples and images throughout the text than the previous edition. It provides more material for illustrating the concepts along with new PowerPoint slides. The application development has been expanded and updated, and the related chapter provides step-by-step tutorial examples for this type of development. The new edition also includes supplementary exercises as well as MATLAB-based exercises to aid both the reader and student in development of their skills.

**Generative AI in Action** Amit Bahree, 2024-10-29 From the back cover: *Generative AI in Action* presents concrete examples, insights, and techniques for using LLMs and other modern AI technologies successfully and safely. In it, you'll find practical approaches for incorporating AI into marketing, software development, business report generation, data storytelling, and other typically human tasks. You'll explore the emerging patterns for GenAI apps, master best practices for prompt engineering, and learn how to address hallucination, high operating costs, the rapid pace of change, and other common problems. About the reader: For enterprise architects, developers, and data scientists interested in upgrading their architectures with generative AI.

**Creating Happy Relationships** Richard Nelson-Jones, 1999-01-30 Relate: counsellors interested in extending their learning about cognitive therapy will find this manual a comprehensive guide. Jan Hobbs Relate News: An easy-to-read, comprehensive text which provides a practical guide to skills for starting, maintaining, and cultivating successful relationships, whether of opposite sexes or the same sex. The Australian Journal of Counselling Psychology: *Creating Happy Relationships* is written in a comfortable, non-academic style using simple, everyday English and incorporates recent research and theory. In addition to many vignettes of partners creating and cultivating happiness, there are plenty of practical activities for improving partner skills. This book is a major resource for prospective partners, couples for marriage preparation, and counselling courses and human communication and relationship education courses in schools, colleges, and universities.
