* GUIDELINES ONLY: The above reflect the most commonly used gauges and needle or hook sizes for specific yarn categories.

** Lace weight yarns are usually knitted or crocheted on larger needles and hooks to create lacy, openwork patterns. Accordingly, a gauge range is difficult to determine. Always follow the gauge stated in your pattern.

*** Steel crochet hooks are sized differently from regular hooks—the higher the number, the smaller the hook, which is the reverse of regular hook sizing

Computational Methods in Systems Biology Vincent Danos, Vincent Schachter, 2005-03-24 The Computational Methods in Systems Biology CMSB workshop series was established in 2003 by Corrado Priami The purpose of the workshop series is to help catalyze the convergence between computer scientists interested in language design concurrency theory software engineering or program verification and physicists mathematicians and biologists interested in the systems level understanding of cellular processes Systems biology was perceived as being increasingly in search of sophisticated modeling frameworks whether for representing and processing system level dynamics or for model analysis comparison and refinement One has here a clear cut case of a must explore field of application for the formal methods developed in computer science in the last decade This proceedings consists of papers from the CMSB 2003 workshop A good third of the 24 papers published here have a distinct formal methods origin we take this as a confirmation that a synergy is building that will help solidify

CMSB as a forum for cross community exchange thereby opening new theoretical avenues and making the field less of a potential application and more of a real one Publication in Springer s new Lecture Notes in Bioinformatics LNBI offers particular visibility and impact which we gratefully acknowledge Our keynote speakers Alfonso Valencia and Trey Ideker gave challenging and somewhat humbling lectures they made it clear that strong applications to systems biology are still some way ahead We thank them all the more for accepting the invitation to speak and for the clarity and excitement they brought to the conference
