

15+ Lessons to Succeed on YouTube in 2022

ALI ABDAAL + SACHIN RAMJE

Doing YouTube is hard

It's not easy money. You just need to be patient and ride the wave.

Compounding is Queen

Focus on creating more videos and 1% improvements every time. Your efforts will compound.

Prioritise audio

People will sit through crappy video quality, but nobody will listen to bad audio.

Learn to edit

Even as a beginner, it's great to learn basic video editing.

Learn to tell stories

Storytelling is super important.

Titles matter

Video titles will make or break your video. No titles, no video.

Test, test, test

A/B testing titles and thumbnails can really impact a video's performance.

Hooks are key

If your hook is bad, viewers will leave. Titles + thumbnails earn the click, but you've got to keep people watching.

Don't chase views

Chase value for your audience. Keep creating valuable content.

Concentrate on inputs

Just get one video out per week when you're starting off. Consistency is key.

Create, create, create

Consistency is King. Focus on getting better, not bigger. Growth comes over time.

Gear doesn't matter

Getting your first video out is way more important than fancy quality.

Block out the haters

What other people think of you is none of your business. Have fun, that's all matters.

Outsource editing fast

Editing is a huge time sink. Focus on creating.

Niche down to blow up

Don't try to be everything to everyone.

Thumbnails matter more

Thumbnails >> Titles. Your video won't get watched if nobody clicks on it.

Leverage your content

Repurpose your original content into blog posts, newsletters, video clips and social media posts.

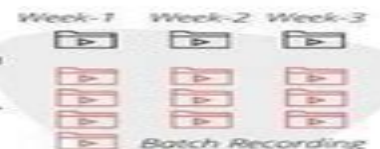

Understand your analytics

Look into the data of what's working and what isn't.

Batch record

Recording multiple videos in one go can save you lots of time and will reduce friction.

Start a newsletter

After creating content in public, move your audience to platforms you own.
