Administrative Procedure and Practice William F. Funk, Sidney A. Shapiro, Russell L. Weaver, 2006 The distinctive approach used by Funk Shapiro Weaver is characterized by two innovations First the primary pedagogical tool is problem solving The second innovation related to the first is to orient the course around administrative law practice rather than theory While theory is not ignored it arises out of the crucible of reality based problems providing a basis for students to appreciate the theory The practice orientation is reflected in the problem approach which involves the administrative process at all stages from lobbying internal agency deliberations and client counseling to the more traditional judicial review The Third Edition retains the approach of the original edition and most of the problems and problem materials from the last edition are also retained However based on the feedback of users the

authors have fine tuned some of the existing problems and replaced others and of course have updated the book in light of judicial and legislative developments that have occurred since the last edition *California.
