Sight words are words that should be memorized to help a child learn to read and write. Learning sight words allows a child to recognize these words at a glance on sight without needing to break the words down into their individual letters and is the way strong readers recognize most words. Knowing common or high frequency words by sight makes reading easier and faster because the reader does not need to stop to try and sound out each individual word letter by letter. So as we see in this definition sight words are so important for kids and adults either because of their huge impact on reading speed and comprehension. In this book *My first 100 sight words workbook* your kid is going to learn his first 100 sight words to help him/her read easily and fast.
