TESTIMONY

Editorial, historical, and statistical material illustrating the Chinese in California.
Volume 1, Part 1.

Immigration from China to the United States has been continuous since 1849, when thousands of Chinese miners flocked to California to seek their fortune. The Chinese have always been a minority in the United States, and their numbers have increased steadily since the 1850s. Today, there are approximately 1.5 million Chinese people living in the United States, making them the largest Asian population in the country.

collective identification of health risks has led to progressive improvements in public health activities Risk and the Politics of Public Health addresses this gap by presenting a detailed critical historical analysis of the evolution of risk thinking within medical and health related discourses Grouped around the four core themes of immigration race armed conflict and detention and prevention this book highlights the innovative capacity of risk related concepts as well as their vulnerability to the dysfunctional effects of dominant social ideologies Risk and the Politics of Public Health is an essential reference for those who seek to understand the interplay of concepts of risk and public health throughout history as well as those who wish to gain a critical understanding of the social dynamics which have underpinned and continue to underpin this complex interaction
