Storming the Ivory Tower Richard Corcoran, 2024-11-19 A firsthand account of how Richard Corcoran former education commissioner of Florida successfully took on powerful progressive interest groups broke their monopoly and paved the way for higher education reform across America. Covid alerted the nation to the reality that K 12 schools private and public alike were infested with ideologues bent on indoctrinating children. Then three years after the beginning of the pandemic the shocking response to Hamas's genocidal assault on Israel made Americans aware that the same tumor had wholly sickened our country's colleges and universities. Now conservatives and increasingly moderates and old school liberals want to know exactly how the radical left captured higher education. Florida has been the vanguard in the war to restore sanity to higher education. And Richard Corcoran has been one of its commanding generals and racking up wins. When Corcoran was Florida's education commissioner he was the point person for reopening schools and banning mask mandates. He triumphed. Then he was given a herculean task remaking a college overrun by radicalism and cancel culture. In 2023 he moved into the president's office in Sarasota took on a campus mob and challenged a media firestorm. Just a year later Corcoran achieved the seemingly impossible. He turned around New College of Florida. Now free speech is protected. Violence and anti-Semitism are abolished. DEI bureaucracy is eliminated. And already enrollment records are being broken. *Storming the Ivory Tower* is the story of how Corcoran is winning the fight for freedom in hostile territory and how others can join the battle.

Pierre Poilievre Andrew Lawton, 2024-05-28 When Pierre Poilievre was elected leader of Canada's Conservative party in 2022 he vowed to put Canadians back in control of their own lives. He took aim at the country's elites and gatekeepers as well as governments that sneer at their own citizens. Railing against the housing crisis and spiralling inflation Poilievre was telling ordinary Canadians he was on their side. As the adopted son of two Alberta teachers Poilievre knows the middle class. But he's also the embodiment of a career politician having spent nearly his entire adult life in politics. In *Pierre Poilievre: A Political Life* journalist Andrew Lawton chronicles Poilievre's life career and his unique brand of conservatism which has galvanized supporters and detractors alike. The portrait that emerges is of a radically authentic yet intensely calculating individual who has been plotting his path to be Canada's prime minister since he was a teenager.

Determined Robert M. Sapolsky,2024-10-15 The instant New York Times bestseller Excellent Outstanding for its breadth of research the liveliness of the writing and the depth of humanity it conveys Wall Street Journal One of our great behavioral scientists the bestselling author of Behave plumbs the depths of the science and philosophy of decision making to mount a devastating case against free will an argument with profound consequences Robert Sapolsky s Behave his now classic account of why humans do good and why they do bad pointed toward an unsettling conclusion We may not grasp the precise marriage of nature and nurture that creates the physics and chemistry at the base of human behavior but that doesn t mean it doesn t exist Now in Determined Sapolsky takes his argument all the way mounting a brilliant and in his inimitable way delightful full frontal assault on the pleasant fantasy that there is some separate self telling our biology what to do Determined offers a marvelous synthesis of what we know about how consciousness works the tight weave between reason and emotion and between stimulus and response in the moment and over a life One by one Sapolsky tackles all the major arguments for free will and takes them out cutting a path through the thickets of chaos and complexity science and quantum

physics as well as touching ground on some of the wilder shores of philosophy He shows us that the history of medicine is in no small part the history of learning that fewer and fewer things are somebody s fault for example for centuries we thought seizures were a sign of demonic possession Yet as he acknowledges it s very hard and at times impossible to uncouple from our zeal to judge others and to judge ourselves Sapolsky applies the new understanding of life beyond free will to some of our most essential questions around punishment morality and living well together By the end Sapolsky argues that while living our daily lives recognizing that we have no free will is going to be monumentally difficult doing so is not going to result in anarchy pointlessness and existential malaise Instead it will make for a much more humane world

The Wire, 2007 Queer

Meg-John Barker, Jules Scheele, 2016. Activist academic Meg John Barker and cartoonist Julia Scheele illuminate the histories of queer thought and LGBTQ action in this groundbreaking non-fiction graphic novel. A kaleidoscope of characters from the diverse worlds of pop culture, film, activism and academia guide us on a journey through the ideas, people and events that have shaped queer theory. From identity politics and gender roles to privilege and exclusion, Queer explores how we came to view sex, gender and sexuality in the ways that we do, how these ideas get tangled up with our culture and our understanding of biology, psychology and sexology, and how these views have been disputed and challenged. Along the way we look at key landmarks which shift our perspective of what's normal, such as Alfred Kinsey's view of sexuality as a spectrum between heterosexuality and homosexuality; Judith Butler's view of gendered behavior as a performance; the play Wicked, which reinterprets characters from The Wonderful Wizard of Oz; or moments in Casino Royale when we're invited to view James Bond with the kind of desiring gaze usually directed at female bodies in mainstream media.
